

Dennis W. Dees

Group Leader, Engineering Research
Argonne National Laboratory
9700 South Cass Avenue, Bldg. 205
Argonne, IL 60439
phone: 630/252-7349
fax: 630-972-4520
e-mail: dees@cmt.anl.gov

Professional Experience

- More than 25 years experience in theoretical and experimental aspects of electrochemistry and electrochemical engineering
- 10 years experience in solid oxide and polymer electrolyte fuel cell technology
- Research in wide range of electrochemical systems, including sensors, calorimetry, and molten salts
- Ceramics processing and materials development

Professional Society Activities

- Electrochemical Society

Awards

- Pacesetter Award 1989, 1997, 2002
- Distinguished Alumnus Award, Illinois Community College Trustee Association, 1991

Publications

- 7 patents
- 10 journal articles
- Numerous talks, extended abstracts, and proceedings papers

Education

- PhD, Chemical Engineering, University of California, Berkeley
- BS, Chemical Engineering, University of Illinois, Champaign
- AS, Southeastern Illinois College
