Professional Experience

- Development of catalyst materials, processing methods, and monolithic substrates for fuel reforming for fuel cell systems
- Characterization of catalyst materials and monolithic substrates for fuel reforming for fuel cell systems, including x-ray diffraction, SEM, and EDX

Professional Society Activities

- American Ceramic Society

Education

- PhD, Materials Science and Engineering, Northwestern University
- MS, Materials Science and Engineering, The University of Michigan--Ann Arbor
- BS, Ceramic Engineering, University of Illinois at Urbana-Champaign
