

VETERANS BENEFITS ADMINISTRATION

Annual Benefits Report Fiscal Year 2006

DEPARTMENT OF VETERANS AFFAIRS

THE UNDER SECRETARY OF VETERANS AFFAIRS FOR BENEFITS

WASHINGTON, D.C. 20420

Dear Reader,

We are pleased to present the Veterans Benefits Administration (VBA) Annual Benefits Report for Fiscal Year 2006. This is the ninth edition of the Annual Benefits Report. Its publication reinforces the Veterans Benefits Administration's commitment to our stakeholders and business partners to provide comprehensive information concerning the activities of our five benefit programs.

This report contains key data pertaining to the utilization of our benefit programs over the past five years. We hope it is a useful tool for the reader to understand our mission and our success.

On the cover and inside this year's report are pictures of VBA employees who are also veterans. These dedicated employees represent all military branches of service and served from post-World War II to Operations Iraqi and Enduring Freedom. All have unique experiences, and their stewardship toward their fellow veterans takes many forms.

On the following pages, we present a summary of the benefits used by our Nation's veterans and their dependents in 2006. I thank the employees of the Veterans Benefits Administration for making a difference in the lives of our veterans and their families.

Daniel L. Cooper

VETERANS BENEFITS ADMINISTRATION MISSION AND VISION STATEMENTS

INTRODUCTION

We are the Veterans Benefits Administration, one of the three Administrations forming the U.S. Department of Veterans Affairs (VA). We offer a wide range of benefits to our Nation's veterans, service members, and their families.

MISSION STATEMENT

The mission of the Veterans Benefits Administration (VBA), in partnership with the Veterans Health Administration and the National Cemetery Administration, is to provide benefits and services to veterans and their families in a responsive, timely, and compassionate manner in recognition of their service to the Nation.

VISION STATEMENT

Our vision is that the veterans whom we serve will feel that our Nation has kept its commitment to them; employees will feel that they are both recognized for their contribution and are part of something larger than themselves; and taxpayers will feel that we've met the responsibilities they've entrusted to us. Courage, honesty, trust, respect, open communication, and accountability will be reflected in our day-to-day behavior.

CORE VALUES

- Veterans have earned our respect and are our reason for being, our common purpose. All our efforts are directed toward meeting their needs.
- We are committed to communicating to our veterans and employees in a timely, thorough, accurate, understandable, and respectful manner.
- We listen to the concerns and views of veterans and our employees to bring about improvement in benefits and services and the climate in which they are provided.
- We value understandable business processes that consistently produce positive results.
- We foster an environment that promotes personal and corporate initiative, risk-taking, and teamwork.
- We are open to change and flexible in our attitudes.
- Respect, integrity, trust, and fairness are hallmarks of all our interactions.
- We value a culture where everyone is involved, accountable, respected, and appreciated.
- We will perform at the highest level of competence, always, and take pride in accomplishment. We are a "can do" organization.

PURPOSE OF VBA'S ANNUAL BENEFITS REPORT

The Annual Benefits Report (ABR) clearly summarizes the benefit programs delivered by VBA, identifies the current level of program participation by eligible persons, and profiles the beneficiaries.

The report is intended to accomplish the following:

- Present a clear, complete, data-driven picture of the extent to which veterans and their dependents use these benefits;
- Provide insights into the nature of the benefits programs;
- Portray the economic impact of VBA programs on veterans, their families, the Federal government, and the Nation.

A complete discussion on VBA's performance in administering these programs is contained in the Department's FY 2006 Performance and Accountability Report, dated November 2006. The document can be accessed through this electronic link: <http://www.va.gov/budget/report/>. Program goals and objectives are detailed in VA's annual performance plans. The FY 2003-FY 2008 Strategic Plan can be found on the Department's website: <http://www.va.gov/Partners/stratcap/index.htm>

VETERANS BENEFITS OVERVIEW

The Veterans Benefits Administration is one of three administrations comprising the Department of Veterans Affairs. VBA is responsible for administering and delivering an array of federally authorized benefits and services to eligible veterans and their dependents and survivors.

With annual expenditures over \$40 billion and long-term obligations exceeding one trillion dollars, VBA programs have a sweeping impact not only on the veteran community but also on the whole of American society. These are programs that touch millions of lives in fundamental ways. Benefits and services administered by VBA fall under five business lines:

COMPENSATION AND PENSION
EDUCATION
LIFE INSURANCE
LOAN GUARANTY
VOCATIONAL REHABILITATION AND EMPLOYMENT

Veterans' benefits represent an integral part of American history. Knowledge of benefits history is important for all those who are interested in a comprehensive understanding of what VBA does and why.

A more general discussion of VA and veterans' benefits from a historical perspective can be found in VA Pamphlet 80-97-2, VA History in Brief, September 1997. This pamphlet is on the VA Home Page: <http://www1.va.gov/opa/feature/history/index.asp>. For the latest copy of the pamphlet entitled Benefits for Veterans and Dependents, go to http://www1.va.gov/opa/vadocs/current_benefits.asp.

The Veterans Benefits Administration, Office of Performance Analysis and Integrity thanks all veteran employees who submitted pictures for the FY 2006 Annual Benefits Report (Anne Gustafson pictured above).

Compensation and Pension

Note to reader: The data in the Compensation and Pension section of this publication includes only awards processed and veterans paid via the Benefits Delivery Network (BDN). As of the end of fiscal year 2006, 10,385 veterans were being paid via VETSNET, a new suite of applications designed to replace BDN. Data for those veterans is not included in this publication. VETSNET data will be included in the fiscal year 2007 Annual Benefits Report.

Current Benefits

Compensation Based Upon Service-Connected Disability or Death

Disability compensation is a monetary benefit paid to veterans with service-connected disabilities. "Service-connected" means the disability was a result of disease or injury incurred or aggravated during active military service. To be eligible for disability compensation, the veteran's discharge must be under conditions other than dishonorable, and the disability must not be the result of willful misconduct by the veteran.

Disability compensation is graduated according to the degree of the veteran's disability on a scale from 0 percent disabling to 100 percent disabling, in increments of 10 percent. Additional benefits are payable to veterans with severe disabilities such as anatomical loss or loss of use of a hand or foot, blindness, or deafness. The most seriously disabled veterans receive the highest benefit amounts, and less severely disabled veterans receive lower benefits.

Dependency and indemnity compensation (DIC) is payable to the survivors of servicemembers who died while on active duty or veterans who died from their service-connected disabilities. VA may also pay DIC benefits to survivors of veterans continuously rated totally disabled due to service-connected disabilities for ten or more years immediately preceding the veteran's death or five years from the date of the veteran's discharge. DIC benefits may also be paid to the survivors of former prisoners of war who died after September 30, 1999, and who were continuously rated totally disabled due to a service-connected disability for a period of not less than one year immediately preceding death.

Surviving spouses and dependent children are potentially eligible for DIC benefits. An additional amount is payable if the

veteran was rated totally disabled for a period of at least eight years prior to death. For deaths prior to January 1, 1993, benefit rates are based on the veteran's military pay grade or the current monthly rate established by law, whichever is the greater benefit.

Parents of veterans or servicemembers who die as the result of a service-connected disease or injury are also potentially eligible for DIC benefits. Parents' DIC is a needs-based program for financially dependent parents.

Pension Based Upon Non Service-Connected Disability or Death

VA pension programs are designed to provide income support to wartime veterans and their families who are experiencing financial hardship. The program is means-tested. The total family income from sources other than VA determines the amount of the benefit. Laws establish income limits and regulate the rates of payment.

Wartime veterans who are age 65 and older or who are determined permanently and totally disabled as the result of a non-service-connected disability may be eligible for a disability pension. Entitlement to this disability pension is subject to income limitations. Additional amounts may be paid to a veteran who has dependents or who is so disabled as to require the aid and attendance of another person, or is housebound. Benefits are also paid under two protected or "grandfathered" prior pension programs. These rates and limits are fixed at the amounts in effect when the programs were replaced.

Surviving spouses and dependent children of wartime veterans are potentially eligible for death pension benefits, subject to income limitations. As with disability pension, death pension is paid under the current pension program as well as under the two "grandfathered" prior programs.

Quick Reference Guide

Number of veterans and survivors receiving compensation and pension benefits at the end of fiscal year 2006 is 3,582,255

- 2,725,824 veterans received service-connected disability benefits
- 325,939 survivors received service-connected death benefits
- 329,856 veterans received non service-connected disability benefits
- 200,636 survivors received non service-connected death benefits

Number of beneficiaries who began receiving benefits (Compensation, Pension, DIC) during fiscal year 2006 is 249,986

- | | |
|-----------------------------|---------|
| ▪ Compensation - Disability | 162,805 |
| ▪ Compensation - Death | 17,461 |
| ▪ Pension - Disability | 45,487 |
| ▪ Pension - Death | 24,233 |

Total veterans receiving service-connected disability benefits end of fiscal year 2006 by period of service is 2,725,824

- | | |
|-------------------|---------|
| ▪ World War I | 2 |
| ▪ World War II | 328,042 |
| ▪ Korean Conflict | 159,804 |
| ▪ Vietnam Era | 947,598 |
| ▪ Peacetime | 595,565 |
| ▪ Gulf War Era | 694,813 |

Most prevalent service-connected disabilities

- | | |
|---|---------|
| ▪ Defective hearing | 444,583 |
| ▪ Tinnitus | 395,324 |
| ▪ General musculoskeletal | 306,517 |
| ▪ Arthritis due to trauma | 287,541 |
| ▪ Scars, others | 282,772 |
| ▪ Post-traumatic stress disorder | 269,399 |
| ▪ Diabetes mellitus | 247,992 |
| ▪ Knee, other impairment | 236,646 |
| ▪ Hypertensive vascular disease | 202,718 |
| ▪ Arthritis, degenerative, hypertrophic | 166,146 |

Data

The table below summarizes information about the beneficiaries who began receiving compensation and pension benefits during fiscal year 2006 and the monetary value of these benefits.

Summary of Beneficiaries Who Began Receiving Compensation and Pension Benefits in Fiscal Year 2006			
Benefit Program	Number of People	Estimated Total Annual Amounts Paid	Estimated Average Annual Amounts Paid
Compensation–Disability	162,805	\$1,182,536,161	\$7,264
Compensation–Death ¹	17,461	\$222,130,977	\$12,722

Compensation - Disability

Disability compensation is paid for disabilities incurred during or aggravated by the veteran’s military service (except when the disability resulted from willful misconduct of the veteran). Only veterans (not dependents, survivors, or others) are eligible to receive VA disability compensation.

Disabilities are evaluated according to the VA Schedule for Rating Disabilities in Title 38, U.S. Code of Federal Regulations, Part 4. The Rating Schedule is based on a “whole person” concept. This means that each disability is evaluated based on its residual effect on the veteran.

The range of disabling effects from a specific disability rarely includes every 10 percent increment from 0 percent to 100 percent. For example, the Rating Schedule provides four possible evaluations for the disabling effect of a disfiguring scar of the head, face, or neck: 0, 10, 30, or 50 percent, according to the extent of the disfigurement. Active pulmonary tuberculosis, on the other hand, is always rated 100 percent disabling. Multiple disabilities will result in a combined degree of disability for purposes of compensation payment.

Combined degree of disability is expressed as a percentage and represents the overall disabling effect on a veteran of all his or her service-connected disabilities. The combined percent is not calculated by summing all the individual degrees of disability. Instead, a rating formula is applied to calculate the overall disabling effect of the veterans’ service-connected disability. Under certain circumstances, multiple zero-percent disabilities can have a combined percentage of 10 percent (38 CFR 3.324). These are called “compensable zeros” and are shown in the 0% row in the tables that follow. Disability compensation monetary amounts are set by Congress and correspond to the combined degree of disability.

Combined Degree	Number of Veterans	Estimated Total Annual Amounts Paid	Estimated Average Annual Amounts Paid
0%	505	\$449,955	\$891
10%	47,667	\$64,470,571	\$1,353

Age of Veterans Receiving Service-Connected Compensation at End of Fiscal Year 2006			
Age	Number of Veterans	Estimated Annual Payments	Percent of Total Estimated Annual Payments
35 and under	213,566	1,185,660,672	4.6%
36-55	833,346	6,596,593,188	25.7%
56-75	1,156,703	12,996,872,940	50.7%
Over 75	522,209	4,843,727,076	18.9%
Total	2,725,824	25,622,853,876	100%

Source: RCS 20-0236 Table 1

Many veterans have more than one disability. Each disability is evaluated according to its disabling effect, without regard to other disabling conditions present. A rating formula is applied to assess the overall disabling effect (combined degree) of all the veteran’s service-connected conditions.

In contrast to the previous tables, which organized information according to the number of individual veterans and their combined evaluations, the table below organizes information according to the number of service-connected disabilities and their separate evaluations. A “zero percent” service-connected disability rating means a disability exists and is related to the veteran’s service, but is not so disabling that it entitles the veteran to compensation payments.

Data for the table below and on the following pages are taken from compensation payment records. Consequently, the disabilities of service-connected veterans with only zero percent ratings are not represented in the tables.

The zero percent disabilities shown in these tables are for those veterans who receive compensation (a zero percent disability and one or more disability rating evaluations above zero percent, i.e., ten percent or greater or as a result of having combined multiple zero percent disability evaluations).

The table below shows disabilities for which compensation is paid. The average number of disabilities per veteran is 2.98. Approximately 89% of these disabilities are evaluated in the zero through thirty percent rating category. The table on the next page shows the frequency of individual service-connected disabilities by body system for veterans receiving compensation at the end of fiscal year 2006.

Total Individual Service-Connected Disabilities by Evaluation for Veterans Receiving Compensation at End of Fiscal Year 2006		
Evaluation	Number of Disabilities	Percent of Total
0%	2,451,180	30.2%

The following table identifies the total number of service-connected disabilities grouped by body system. The percentages reflect the proportional amount that each rating represents for that body system. The last column on the next page reflects the proportional amount for each evaluation for all body systems, e.g. 40.3% of the total service-connected disabilities are rated at 10%.

Dependency and Indemnity Compensation

Dependency and Indemnity Compensation (DIC) is payable to survivors of veterans who die of service-related causes. This section provides information about surviving spouses, children, and parents who received DIC during fiscal year 2006.

The tables below show the number of surviving spouses, children (those not included as dependents on a surviving spouse's award), and dependent parents initially awarded DIC benefits during fiscal year 2006.

Total Beneficiaries Who Began Receiving DIC from Fiscal Year 2002-2006					
Type of Benefit	2002	2003	2004	2005	2006
Surviving Spouses	16,571	17,029	17,007	17,480	15,993
Surviving Children	1,940	1,930	1,821	1,396	1,248
Surviving Parents	195	229	291	286	220

The table below shows children who began receiving DIC benefits in fiscal year 2006 by two age categories: those under age 18 and those over age 18. Children over age 18 are shown according to their beneficiary status: those eligible to receive DIC because of school attendance and those eligible because they are helpless.

Age of Children Who Began Receiving DIC Benefits in Fiscal Year 2006		
Children's Age	Number of Beneficiaries	Estimated Annual Payments
Under Age 18 ¹	566	\$3,088,669
Age 18 and Over in School	488	\$1,529,646
Age 18 and Over - Helpless	194	\$1,312,596

Disability Pension

Disability pension is payable to wartime veterans who are age 65 and older or are determined permanently and totally disabled as the result of a non-service connected disability. Disabilities for pension claims are evaluated in the same manner as disabilities for compensation claims (using the VA Schedule for Rating Disabilities in Title 38, U.S. Code of Part 4).

The tables below show the number of veterans added to the disability pension rolls during fiscal year 2006,

the total annual amount and average annual amount of disability pension payments.

The category called Other Pension Programs consists of two older pension programs—Old Law and Section 306. While VA still pays benefits under these programs, it does not accept new applications for them. If a beneficiary ever loses entitlement to these older pension programs due to changes in eligibility criteria, the beneficiary must establish entitlement to pension under the rules of the current program.

Type of Pension	Number of Veterans	Estimated Average Annual Amounts Paid	Estimated Total Annual Amounts Paid
PL 95-588– New Law Pension	45,474	\$9,200	\$418,338,412
Other Pension Programs	13	\$1,469	\$19,092
Total	45,487	\$9,197	\$418,357,504

Type of Pension	Number of Veterans	Estimated Average Annual Amounts Paid	Estimated Annual Amounts Paid
Protected (Old Law) Pension	110	\$1,064	\$117,084
Section 306 Pension	8,601	\$1,635	\$14,058,816
PL 95-588 New Law Pension	321,145	\$8,351	\$2,681,734,056
Total	329,856	\$8,173	\$2,695,909,956

Source: Benefits Delivery Network—RCS-20-0221

The first table below shows the distribution of veterans by period of service as of fiscal year 2006. The second chart displays the number of veterans who began receiving disability pension benefits during fiscal year 2006 and the annual amount of disability pension payments for each age group. The "Other Pension" category groups the two older pension programs, Protected Pension (or Old Law and Section 306 Pension), into one. Additionally, this category references entitlement restored. The average age of a veteran in these programs is 68.4 years. The third chart shows veterans receiving disability pension by age, end of fiscal year 2006.

Disability Pension by Period of Service at End of Fiscal Year 2006				
Period of Service	Other Pension - Number of Beneficiaries	New Law Pension - Number of Beneficiaries	Total Period of Service	Estimated Annual Payments
World War I	0	7	7	\$55,188

Death Pension

The death pension program provides income support to surviving spouses and dependent children of wartime veterans who are experiencing financial hardship. Laws establish income limits and regulate the rates of payment. Death pension is paid under the current pension program as well as under the two “grandfathered” prior programs.

The number of beneficiaries added to the death pension rolls during fiscal year 2006 is shown below. The table also shows the estimated total annual amount and the estimated average annual amount of death pension payments. The table groups the two older pension programs into one category called “Other Pensions.” Original claims can no longer be granted under the two older pension programs. However, survivors whose awards were previously stopped can be reinstated if they meet certain income and entitlement criteria. The bottom two tables show the total beneficiaries receiving death pension and the estimated total annual amounts as of the end of fiscal year 2006 and the age of surviving spouses who began receiving death pension benefits during fiscal year 2006.

Beneficiaries Who Began Receiving Death Pension During Fiscal Year 2006 by Program

Fiduciary Program

VA's Fiduciary Program is responsible for protecting the benefit entitlement of incompetent VA beneficiaries and ensuring that benefits are issued for their welfare and needs. Program responsibilities include selecting and monitoring a qualified fiduciary that meets the needs and situation of the beneficiary. This section provides information concerning fiduciaries who have been appointed to receive payments for VA beneficiaries. The tables below provide the number of beneficiaries with a fiduciary by payee type, and the annual and average amounts paid by benefit program. The table at bottom shows the relationship of the fiduciaries to the beneficiaries.

Number of Beneficiaries by Payee Type	
Payee Type	Number of Beneficiaries
Veteran	65,273
Surviving Spouse	14,269
Adult Disabled Child	18,075
Minor Child	2,896
Dependent Parent	134

Education

VA Education programs provide veterans, servicemembers, reservists, and certain family members of veterans with educational resources to supplement opportunities missed because of military service. These programs are also meant to help the armed forces both recruit and retain members. For members of the armed forces, VA educational benefits assist in the readjustment to civilian life. On a broader scale, educational benefits are meant to enhance the Nation's competitiveness through the development of a more highly educated and more productive workforce.

Current Benefits

There are five active education programs:

- All-Volunteer Force Educational Assistance Program (*Montgomery GI Bill – Active Duty*)
- Educational Assistance for Members of the Selected Reserve (*Montgomery GI Bill – Selected Reserve*)
- Reserve Educational Assistance Program (*REAP*).
- Post-Vietnam Era Veterans' Educational Assistance Program (*VEAP*)
- Survivors' and Dependents' Educational Assistance (*Dependents Educational Assistance - DEA*)

Education Programs

All-Volunteer Force Educational Assistance Program (Montgomery GI Bill - Active Duty)

Montgomery GI Bill – Active Duty (MGIB-AD) is a contributory program. The servicemember's pay is automatically reduced by \$100 per month for the first 12 months of active duty unless the servicemember declines to participate at the time of enlistment.

Requirements and features of MGIB-AD are as follows:

- First entered active duty on or after June 30, 1985;
- Must fulfill one's basic service obligation;
- Must have completed the requirements of a secondary school diploma, or its equivalent, before applying for benefits;
- Must receive an honorable discharge;

- Maximum entitlement is 36 months;
- The Department of Defense (DoD) may increase an individual's monthly benefit by up to \$950 based upon the military skill or specialty of that individual;
- Amount of basic benefit may be increased by up to \$150 each month by making an additional contribution up to \$600; and,
- Generally, must use benefits within 10 years following discharge

Educational Assistance for members of the Selected Reserve (Montgomery GI Bill - Selected Reserve)

Montgomery GI Bill – Selected Reserve (MGIB-SR) is the first GI Bill to provide educational assistance to members of the Selected Reserve (including National Guard members). DoD funds this program and is responsible for determining eligibility. VBA administers the program.

Requirements and features of MGIB-SR include:

- Must agree to a six-year Selected Reserve obligation after June 30, 1985;
- Must have completed the requirements of a secondary school diploma, or its equivalent, before applying for benefits;
- Must remain a member in good standing in the Selected Reserve;
- Maximum entitlement is 36 months; and
- Generally, must use benefits within 14 years of date eligibility began

Reserve Educational Assistance Program (REAP)

REAP provides educational assistance to members of the National Guard and Reserves who serve on active duty in support of a contingency operation under federal authority on or after September 11, 2001. Requirements and features of REAP are as follows:

- DoD determines eligibility to REAP
- Members who served on active duty beginning on or after September 11, 2001;
- Must have served on active duty in support of a contingency operation under federal authority for a minimum of 90 consecutive days;
- Maximum full time entitlement is 36 months;
- Benefit rate is a portion of the MGIB-AD 3 year enlistment rate

Post-Vietnam Era Veterans Educational Assistance Program (VEAP)

VEAP was the first GI Bill program that required a contribution by the servicemember. Requirements and features of VEAP are as follows:

- First entered active duty after December 31, 1976, and before July 1, 1985;
- Contributed to VEAP while on active duty and before April 1, 1987;
- Maximum contribution of \$2,700 by the servicemember;
- Government matches contribution \$2 for \$1;
- Maximum entitlement is 36 months;
- Benefit must be used within 10 years of the last discharge from the service;
- Unused contributions may be refunded;
- Additional "kickers" or contributions from the Department of Defense (DoD) under certain circumstances; and
- Current full-time VEAP rate is based on the monthly contributions up to a maximum of \$300 per month plus any DoD "kicker" adjustment.

Dependents Educational Assistance (DEA)

DEA is the only VA educational assistance program designed for students who have never served in the armed forces. Features and requirements of DEA are as follows:

- Eligibility is based on the veteran's service-connected death, total service-connected disability, or MIA/POW/hostage status;
- Maximum entitlement is 45 months;
- Children generally have eight years in which to use benefits;
- With some exceptions, children must be between ages 18 and 26;
- Spouses generally have 10 years in which to use benefit and 20 years if the veteran dies on active duty;
- A spouse loses entitlement if they remarry before age 57 but may have entitlement restored if the remarriage terminates by death or divorce;
- Expanded to grant eligibility to spouses and children of service members who are hospitalized or receiving outpatient care for a permanent and total disability while still on active duty.

Quick Reference Guide

The following table shows the number of veterans, servicemembers, reservists, and dependents who received education benefits from fiscal year 2002-2006. The second table on this page displays the number of beneficiaries who began receiving education benefits by the type of training and program in fiscal year 2006. The type of training has remained fairly consistent for all five programs with the majority of trainees pursuing under-graduate programs of study. The table on the next page displays training available under the four benefit programs.

Beneficiaries Terminating Education Programs

Educational assistance terminates when a veteran exhausts entitlement or reaches the deadline for using the benefit.

Veterans, servicemembers and reservists are generally entitled to 36 months of educational assistance (entitlement). Dependents are entitled to 45 months of educational assistance. Once 36 or 45 months of educational assistance are used, payment of the benefit ends.

The delimiting date is the amount of time a dependent has to use educational assistance. Veterans generally have 10 years from the date of their last discharge from active military service. Reservists have either 14 years (for those who were eligible on or after October 1, 1992) from the date their eligibility began or until the day following separation from the Selected Reserve, whichever is earlier. In the Dependents Educational Assistance program, children usually have until age 26; and spouses, or surviving spouses, generally have 10 years from their date of eligibility, 20 if the servicemember dies on active duty.

Beneficiaries Whose Benefits Terminated During Fiscal Year 2006 by Program					
Program	2002	2003	2004	2005	2006

Education Enhancements

Recently, four additional opportunities have been added for beneficiaries to use their benefits. Beneficiaries may use Tuition Assistance Top-Up (TATU), repayment for licensing and certification tests, accelerated payments, and transferability of MGIB-AD benefits.

The TATU program permits VA to issue a payment to an individual for all or any portion of the difference between the military service's tuition assistance (TA) amount and the total cost of tuition and related expenses, up to an individual's normal monthly benefit. An individual must receive military tuition assistance for the course to be eligible for TATU payments. There was a 2.5 percent increase in the number of unique trainees in fiscal year 2006 compared to fiscal year 2005.

Beneficiaries may receive up to \$2,000 in reimbursement for approved licensing and certification tests taken on or after March 1, 2001. VA is limited to reimbursement of the actual approved test fee, and cannot reimburse other costs that may be associated with obtaining a license or certification. The number of unique individuals receiving reimbursement for licensing and certification tests decreased by almost 11 percent in fiscal year 2006 compared to fiscal year 2005.

Accelerated payments may be made for certain high-cost, high-tech programs for enrollments on or after October 1, 2002. To qualify, beneficiaries must be enrolled in a high-tech program and must certify that they intend to seek employment in a high-tech industry as defined by VA. Beneficiaries requesting accelerated payment receive a lump-sum payment of 60 percent of their tuition and fees (the cost of tuition and fees for the term must be equal to, or greater than, 200 percent of the MGIB benefit otherwise payable for the term). Total payments under this program increased by 6 percent in fiscal year 2006 compared to fiscal year 2005.

Unique Trainees and Payments (\$000)								
	FY 2003		FY 2004		FY 2005		FY 2006	
Tuition Assistance Top-Up	12,520	\$12,592	11,786	\$14,974	12,905	\$17,868	13,245	\$19,710

Source: Education Service SAS Reports ¹ Number of unique trainees not available								

Summary

Overall, the number of beneficiaries in the five programs remained consistent in fiscal year 2006 compared to fiscal year 2005. The MGIB-SR program saw a slight decrease of 7% in fiscal year 2006. This decrease can be attributed to MGIB-SR program participants transitioning into the new REAP program. Reserve program participants overall remained consistent when comparing fiscal year 2005 to fiscal year 2006. Most beneficiaries in the four programs are using their benefits on a full-time basis for training that leads to an undergraduate degree.

The overall usage of MGIB, our largest program, grew from 57.9% in fiscal year 2001, to 66.5% in fiscal year 2006. The MGIB usage rate is derived by dividing the number of veterans who have received MGIB benefits by the number of all veterans who participated in MGIB and separated from active military service. The usage rate includes those veterans who are still within their 10 year eligibility period but have not yet applied for education benefits. The usage rate for those veterans who have passed their eligibility period has continued to be above 70% between fiscal year 2001 and fiscal year 2006. We expect these trends to continue in fiscal year 2007 and fiscal year 2008.

Life Insurance

History

Traditionally, few commercial life insurance companies offered life insurance that included coverage against death while in the armed forces. Those that did charged a high premium rate because of the additional risk. Currently, service members leaving the armed forces are eligible to maintain their VA life insurance following discharge. In general, a new life insurance program was created for each wartime period starting with World War I. The various life insurance programs can be conveniently grouped into the following three categories; Matured Life Insurance Programs, Disabled Veterans Life Insurance Programs, and Uniformed Services and Post-Vietnam Life Insurance Programs.

America entered World War I in April 1917. The War Risk Insurance Act was amended on June 12, 1917, to cover merchant marine personnel. The Act was again amended on October 6, 1917, authorizing, for the first time, issuance of government life insurance to members of the armed forces. Over 4 million policies were issued during World War I. With each succeeding war, the government through the VA continued to provide Life Insurance to the military members while on active duty and after separation.

Purpose

The purpose of the program is to provide service members and their families with universally available life insurance (available to all service members and their families without underwriting), as well as traumatic injury protection insurance for service members. It also provides for the conversion to a renewable term insurance policy after a service member's separation from service. In addition, the program provides life insurance to veterans who have lost their ability to purchase commercial insurance at standard (healthy) rates due to lost or impaired insurability resulting from military service.

Benefits and services will be provided in an accurate, timely and courteous manner and at the lowest achievable administrative cost. Insurance coverage will be provided in

reasonable amounts at competitive premium rates largely comparable to those offered by commercial companies. A competitive, secure rate of return will be ensured on investments held on behalf of the insured.

Current Benefits

Matured Life Insurance Programs

These programs were established to provide the same or better life insurance benefits than were available to private citizens when these programs were established. The matured life insurance programs are closed to the issuance of new coverage but continue to have active policies. These include the National Service Life Insurance (NSLI), United States Government Life Insurance (USGLI), Veterans' Special Life Insurance (VSLI) and Veterans' Reopened Insurance (VRI) programs.

Disabled Veterans Insurance Programs

These programs were established to provide insurance coverage and services to veterans who lose their ability to purchase commercial insurance at standard (healthy) rates because of their service-connected disabilities. These life insurance programs continue to issue coverage. These include the Service-Disabled Veterans Insurance (S-DVI) and the Veterans' Mortgage Life Insurance (VMLI) programs.

Uniformed Services and Post-Vietnam Veterans

These programs were established to provide insurance coverage and services to active duty and reserve members of the uniformed services that are commonly provided by large scale civilian employers. These include the Servicemembers' Group Life Insurance (SGLI), Family Servicemembers' Group Life Insurance (FSGLI), Traumatic Injury Protection Insurance (TSGLI) and the Veterans' Group Life Insurance (VGLI) programs.

Quick Reference Guide

This table displays the number of lives insured and the face amount for both the administered and supervised insurance programs.

Lives Insured					
Lives Insured	2002	2003	2004	2005	2006

Coverage Established During Fiscal Year 2006

The table that follows identifies the number of new policies issued during fiscal year 2006, the total face value of the policies, and the average face value of the policies. In the case of SGLI and FSGLI, which is group insurance, the military services maintain the records on each insured servicemember. The actual number of servicemembers who enrolled in SGLI in fiscal year 2006 is not known. The information shown in this table is estimated based upon current enrollment rates and the number of people who entered active military service during fiscal year 2006. The exact number of children covered by FSGLI is also an estimate.

New Life Insurance Coverage Issued During Fiscal Year 2006				
Life Insurance	Number of People Insured	Total Coverage Amount	Average Face Value	Maximum Face Value
VMLI ¹	264	\$21,601,685	\$81,800	\$90,000
SDVI ^{2, 3}	14,218	\$157,681,500	\$11,090	\$10,000
VGLI ⁴	33,947	\$7,176,325,00	\$211,398	\$400,000
SGLI ⁵	311,925	\$120,029,561,200	\$384,803	\$400,000
SGLI ⁶ - Child	171,342	\$1,713,420,000	\$10,000	\$10,000
FSGLI ⁶ - Spouse	172,119	\$16,933,550,013	\$98,383	\$100,000

Lump-Sum Payments Made During Fiscal Year 2006 – To Beneficiaries

Death claims are paid to the beneficiary upon the death of the insured person. In the case of FSGLI, the death claim is paid to the servicemember. All other death claims are paid to the veteran's or the servicemember's designated beneficiary. The table below provides a distribution of the lump-sum death claim payments by life insurance program.

Life Insurance Payments During Fiscal Year 2006			
Death Claims	Number¹	Amount²	Average Payment
USGLI	1,053	\$3,527,330	\$3,350
NSLI	82,548	\$888,365,365	\$10,762
VSLI	5,940	\$70,186,481	\$11,816
VRI	4,222	\$36,214,350	\$8,578

Average Amounts Paid	\$14,637	\$15,686	\$16,698	\$17,656	\$20,978

Source: (same as table on previous page)

In our administered programs, death claims have been increasing proportionally with the advancing age of our policyholders. There was an increase of face amount from \$250,000 to \$400,000 in the SGLI and VGLI programs, which became effective September 1, 2005. This had an impact on the number of death claims paid in 2006.

Monthly Payments to Policyholders at the End of Fiscal Year 2006

Although most veterans choose to receive payments in a single “lump sum,” a monthly payment option is available for Cash Surrenders and Matured Endowments. In the two disability benefit provisions of policies – Total and Permanent Disability Provision and Total Disability Income Provision – no lump-sum option exists; payments are made monthly. The table below provides data on monthly payments to veterans.

Life Insurance Monthly Award Payments at End of Fiscal Year 2006			
Payment Type	Number	Monthly	Average
Total Disability Income Provision			
USGLI	31	\$19,692	\$635

FIVE YEAR COMPARISON OF LIFE INSURANCE COVERAGE IN FORCE AS OF THE END OF THE FISCAL YEAR (in billions)

Source: (same as table on previous page)

The large increase in coverage amounts beginning in 2005 is due to the passage of Public Law 109-80, effective September 1, 2005. It increased the maximum amount of SGLI and VGLI coverage from \$250,000 to \$400,000 for servicemembers and veterans.

Demographic Characteristics of Policyholders by Age

The table below shows the age distribution of persons insured in VA Life Insurance programs and the percent of total each age group represents for that life insurance plan.

Note: Because certain programs were active only during past wartime periods, their age distributions parallel the aging of all other veterans of those periods. The programs in which policies can still be obtained (SDVI, VMLI, SGLI, VGLI) have policyholders across a wide distribution of ages. This table includes only spouses in the FSGLI data.

Age Distribution for Life Insurance Programs % of Total by Policy Type

SGLI and FSGLI Coverage by Amount

SGLI coverage of up to \$400,000 is available in increments of \$50,000. Minimum allowable coverage is \$50,000. For FSGLI, the maximum coverage for spouses is \$100,000, or the amount of the service member's SGLI, whichever is less. The table below shows the number of SGLI policyholders and insured FSGLI spouses covered. The total percentage by coverage level for both categories of duty status is shown. For ease of presentation, the maximum coverage level is shown by itself, while all the lesser coverage levels are shown in a combined number.

SGLI and FSGLI Coverage By Coverage Level Active and Reserve Duty				
Coverage	Number with Coverage		Percent with Coverage	
	\$50,000-\$350,000	\$400,000	\$50,000-\$350,000	\$400,000

Program Enhancements & New Legislation

Public Law 109-13, effective December 1, 2005, established Traumatic Injury Protection Insurance under the SGLI program. TSGLI provides for payment between \$25,000 and \$100,000 (depending on the type of injury) to any member of the uniformed services covered by SGLI who sustains a traumatic injury that results in certain severe losses. This law also contains a retroactive provision that provides a servicemember who suffered a qualifying loss on or after October 7, 2001, and through and including November 30, 2005, with a benefit under TSGLI if the loss was a direct result of a traumatic injury incurred in Operation Enduring Freedom or Operation Iraqi Freedom.

Public Law 109-233, effective June 15, 2006, extended the free coverage period under the SGLI Disability Extension from one year to two years after an eligible member's date of separation. As a result of this change, servicemembers who have a SGLI policy and are totally disabled from the time they separate from service can now keep their SGLI coverage for up to two years at no cost to them. Public Law 109-13, effective May 11, 2005, increased basic SGLI coverage to \$400,000, effective September 1, 2005.

Summary

VA Life Insurance provides over \$1.1 trillion in insurance coverage to 7.5 million veterans, servicemembers and their families. In 2006, \$2.8 billion was paid to veterans, survivors and their families in the form of dividends, policy loans, cash surrenders, matured endowments and death benefits.

The Servicemembers' Group Life Insurance Traumatic Injury Protection (TSGLI) program is an automatic rider under SGLI that provides for payment of between \$25,000 and \$100,000 to any member of the uniformed services covered by SGLI who sustains a traumatic injury that results in certain severe losses, such as blindness or the loss of limbs. It was designed to provide the member with monetary assistance to help them and their family through an often long and arduous treatment and rehabilitation period.

Ninety-nine percent of all active duty servicemembers and ninety-four percent of reservists are insured under SGLI. Like many government programs, the insurance program was established to meet a need that the private sector could not provide. The origins of today's insurance programs date back to 1914.

Loan Guaranty

Through more than 60 years of change, the VA Loan Guaranty Program has stayed true to its mission—helping veterans become homeowners and helping them stay in their homes.

The VA home-loan guaranty program was first created for veterans of World War II at a time when loans for homes were officially encouraged to help avert a post-war economic recession. The program was one of the major innovations advanced by the Servicemen's Readjustment Act of 1944 (PL 78-346), known as the GI Bill of Rights. By providing loan guaranties to lenders, the government could provide a housing benefit to veterans at little cost. Since that enactment, the program has expanded to include veterans of all succeeding wars, peacetime veterans, men and women on active military duty, surviving spouses, and reservists. Central to the program is the goal of helping those who served the nation in uniform, and their families, achieve the American dream of home ownership.

Since World War II, the VA Loan Guaranty Program has assisted veterans by guaranteeing slightly over 18 million home loans totaling over \$906 billion. Most were made without a downpayment. These loans are made on favorable terms; they can be for up to 30 years, can be pre-paid without penalty, and can be assumed by a creditworthy purchaser of the home.

The primary advantage of the VA loan is that the veteran does not have to make a downpayment. Additionally, VA assists veteran borrowers who are experiencing difficulties making their mortgage payments through personal, supplemental loan servicing. VA often intercedes with the lender to arrange forbearance i.e., to give the veteran more time to catch up on past due amounts before deciding whether to foreclose on the property.

VA will also refund loans in appropriate cases, or suggest available alternatives to foreclosure such

as deeds in lieu of foreclosure or compromise sales. These alternatives are beneficial to the veteran and the Government. The VA home loan program has been and remains a major benefit to veterans in acquiring their own homes.

Program Objectives

The objective of the VA home loan guaranty program is to enable veterans (and other eligible people) to enter the home-buying market. The “no downpayment” feature is intended to help veterans afford the purchase of suitable homes. VA does not require a downpayment if the purchase price or cost is not more than the reasonable value of the property as determined by VA, but the lender may require one. If the purchase price or cost is more than the reasonable value, the difference must be paid in cash from the veteran's own resources.

Current Benefits

VA home loans may be used to:

- Purchase a home;
- Purchase a residential unit in certain condominium projects;
- Build a home;
- Refinance an existing home loan; or
- Improve a home by installing solar heating or other energy conservation measures.

There are three types of loans guaranteed as defined by the purpose of the loan. A “Purchase Loan” is one used to purchase a home. The other two types of loans are “refinancing” loans: interest rate reduction and other refinancing, (i.e., cash-out). Interest rate reduction is the most common reason for refinancing a loan.

There is no maximum loan amount for a VA loan. Lenders generally set a maximum based on rules

of the secondary mortgage market. The maximum VA guaranty is 25% of the conforming loan limit as reported by Freddie Mac, and lenders are usually willing to loan up to the conforming loan limit without a down payment. (Note: Guaranty on cash-out refinances is limited to \$36,000).

Veterans pay a funding fee ranging from 1.25 percent to 3.3 percent of the loan amount (0.5 percent for interest rate reduction loans). The funding fee can be included in the loan. Veterans receiving VA compensation are exempt from paying the fee.

Severely disabled veterans, mostly those who are wheelchair bound, may be entitled to obtain grants under the Specially Adapted Housing Program. Additionally, Special Housing Adaptation grants are available for disabled veterans who have blindness in both eyes, or have anatomical loss or loss of use of both hands. These distinctive programs help eligible veterans through grants to buy, build or modify homes specifically adapted for their use. There is no time limitation or deadline for applying for either grant benefit.

These benefits can be used for, but are not limited to:

- Wider doorways and hallways to accommodate wheelchairs;
- Ramps instead of steps; and
- Wheelchair-accessible bathrooms.

Loan Guaranty also administers the Native American Veterans Direct Loan Program. This program helps Native American veterans in financing the purchase of homes on Federal trust territory. Loan Guaranty provides program information and materials to all interested parties and to VA personnel.

VA has entered into memoranda of understanding (MOUs) with 70 participating Native American tribes. During fiscal year 2006, VA closed 30 loans under this program. Since its inception, VA has made nearly 600 loans to Native American veterans under this program.

Quick Reference Guide

This quick reference guide contains highlights of information most requested about the Loan Guaranty Program. Data is from fiscal year 2006 only.

- 142,708 loans were guaranteed
- Worth over \$6.4 billion
- \$172,629 was the average amount per loan
- 13,874 of the loans were interest rate reduction loans

The table below shows overall activity for the past five years. The decrease in the last two years is largely due to the drop in interest rate reduction refinance loans. Many veterans were able to refinance their loans at a lower interest rate during fiscal year 2002, and then again in fiscal year 2003 and 2004. During those years, interest rate reduction refinance loans were over 50 percent of the activity.

VA Home Loans Guaranteed Over the Past Five Years					
Fiscal Year	2002	2003	2004	2005	2006

Total Guaranty Amount (\$)	11,667,454,970	18,245,097,305	12,643,384,380	6,808,452,010	6,486,196,646
Average Guaranty Amount (\$)	36,777	37,279	37,653	41,051	45,451

The table below summarizes eligibility criteria for the Loan Guaranty Program. All veterans must have been discharged or released from active duty under other than dishonorable conditions. If the veteran served less than the minimum required time period, he or she could be eligible if discharged because of a service-connected disability.

Summary of Home Loan Guaranty Entitlements and Other Eligibility Criteria		
Period Of Service or Entitlement	Service Dates	Length of Service or Other Criteria
World War II	9/16/40 - 7/25/47	90 days
Post-World War II	7/26/47 - 6/26/50	181 continuous days
Korean War	6/27/50 - 1/31/55	90 days
Post-Korean War	2/1/55 - 8/4/64	181 continuous days
Vietnam Era	8/5/64 - 5/7/75	90 days*
Specific Entitlement for Post-Vietnam Era	5/8/75 - 9/7/80	181 continuous days
Enlisted	9/8/80 - 8/1/90	2 years
Officers	10/17/81 - 8/1/90	2 years
Gulf War Era	8/2/90 - present	2 years or period called to active duty (not less than 90 days)
Active Duty Personnel		On active duty, after having served continuously for at least 181 days (90 days for Gulf War Era duty) unless discharged or separated from a previous qualifying period of active duty service.
Reservists		6 years
Unmarried Surviving Spouse		Married to an eligible veteran who died as a result of service or service-connected conditions.
Spouse of POW/MIA		Active duty member who is missing in action (MIA) or who is a prisoner of war (POW)
Restored Entitlement		Veterans who previously used the home loan benefit, but had entitlement restored because the loan was paid in full and property was disposed of.

* For veterans who served within Vietnam, the beginning date is 2/28/1961

The following table shows the distribution of loans guaranteed in fiscal year 2006, sorted by whether or not the borrower made a downpayment as well as by buyer status. The five-year trend by borrower status is shown on the last table on this page.

Types and Characteristics of Loans Guaranteed in Fiscal Year 2006				
Status	First Time Home Buyer	Previous Home Buyer	No Downpayment	
Number of Loans	63,836	58,768	110,503	
Total Loan Amount (\$)	\$10,553,754,994	\$11,291,960,373	\$19,475,179,031	
Average Loan Amount (\$)	165,327	192,144	176,241	
Total Guaranty Amount (\$)	\$2,839,700,741	\$2,919,748,888	\$5,146,082,572	
Average Guaranty Amount (\$)	44,485	49,682	46,976	
Status	Downpayment	Purchase Loans	Interest Rate Reduction	Cash Out/ Other Refinancing
Number of Loans	12,101	122,604	13,875	6,229
Total Loan Amount (\$)	\$2,370,536,336	\$21,845,715,367	\$1,772,740,625	\$1,017,012,175
Average Loan Amount (\$)	195,896	178,181	127,765	163,271
Total Guaranty Amount (\$)	\$613,367,057	\$5,759,449,629	\$518,053,249	\$208,657,768
Average Guaranty Amount (\$)	50,687	46,976	37,337	33,504

Five-Year Trend of Loans Guaranteed by Status					
Status	2002	2003	2004	2005	2006
First Time Home Buyer	89,575	69,154	73,891	60,735	63,836
Previous Home Buyer	87,323	79,656	78,504	58,395	58,768
No Downpayment	106,541	135,160	137,773	108,385	110,503
Downpayment	16,357	13,650	14,622	10,745	12,101
Purchase Loans	176,899	148,810	152,395	119,130	122,604
Interest Rate Reduction	131,889	330,426	175,147	40,995	13,875
Other Refinancing	8,464	10,182	8,246	5,729	6,229

The following table shows activity of programs designed to provide housing assistance grants to seriously disabled veterans as well as direct loans to Native American veterans on trust lands during fiscal year 2006.

Specially Adapted Housing Grants and Direct Loans During Fiscal Year 2006				
Program	Specially Adapted Housing Grants*	Special Adaptation Housing Grants	Direct Loans to Native Americans	Total
Number of Grants / Loans	503	45	30	578
Amount of Grants / Loans (\$)	24,176,195	411,590	4,957,000	29,544,785
Average Amount of Grants / Loans (\$)	48,064	9,146	165,233	51,116

*The goal of the Specially Adapted Housing (SAH) Program is to provide a barrier-free, wheelchair accessible living environment which affords the veteran a level of independent living he or she may not normally enjoy.

SAH Program Enhancements

The Veterans Housing Opportunity and Benefits Act of 2006 (CPL109-233), enacted on June 15, 2006, establishes that an eligible veteran or active duty servicemember can now use his or her benefit up to three times as long as the aggregate amount of assistance does not exceed the maximum amounts allowable for grants authorized under Title 38, United States Code (U.S.C.), section 2101(a) or section 2101(b). The law also authorizes VA to provide SAH assistance to veterans temporarily residing in a home owned by a family member.

Summary

VBA recently guaranteed its 18 millionth home loan since the inception of the Loan Guaranty Program. The flexibility of the program ensures its accessibility to the vast majority of the qualifying veteran home buyer population. The number of Specially Adapted Housing and Special Home Adaptation Grants to assist seriously disabled veterans achieve maximum independence in their own homes continues to increase each year.

Vocational Rehabilitation & Employment

The mission of the Vocational Rehabilitation and Employment Program (VR&E) is to provide comprehensive services and assistance to enable veterans with service-connected disabilities and employment handicaps to obtain stable and suitable employment. When the severity of disability prohibits suitable employment, VR&E assists veterans to achieve maximum independence in daily living.

Administering an aspect of VA's educational benefit programs, VR&E provides a wide range of vocational and educational counseling services to veterans, active-duty servicemembers and eligible dependents. These services are designed to help individuals choose a vocational direction and to determine the course needed to achieve vocational goals. Assistance may include interest and aptitude testing, occupational exploration, career counseling, vocational goal setting, and exploring educational or training facilities which might be utilized to achieve occupational goals.

In the VR&E program, veterans progress through all or part of a series of steps. VR&E provides each veteran with a case manager who advises the veteran, and who follows the veteran's progress through the program and ensures delivery of prescribed services. The full range of steps is described below:

- Step 1. Application for benefits and assessment of program eligibility.
- Step 2. Evaluation to assess needs and to determine services to which a veteran may be entitled, and formulating a plan of rehabilitation.
- Step 3. Provision of rehabilitation services for either employment (services and assistance that lead to the veteran becoming job-ready), or achievement of a measure of increased ability to live more independently in the community.
- Step 4. Rehabilitation: Veterans who have obtained and maintained suitable employment or achieved maximum independence in daily living.

Quick Reference Guide Fiscal Year 2006

Number of participants receiving Vocational Rehabilitation and Employment (VR&E) benefits at the end of fiscal year 2006 is 52,982.

- 12,062 disabled veterans successfully completed a program of rehabilitation
- 6,552 veterans with serious employment handicaps were rehabilitated
- 41 was the average age of male participants
- 37 was the average age of female participants

98.9% of all VR&E beneficiaries received vocational rehabilitation services in the following categories during fiscal year 2006.

• Undergraduate School	45,425
• Vocational/Technical School	2,816
• Graduate School	2,236
• College, Non-Degree	1,065
• Extended Evaluation/Independent Living	884

Data

In Fiscal Year 2006, 57,856 veterans applied for Vocational Rehabilitation and Employment services. Of those who applied:

- 63.1% were found to be entitled;
- 5.9% did not have a qualifying service-connected disability rating and were determined not eligible; and
- 11.9% were determined not entitled (no qualifying employment handicap or serious employment handicap);
- 19.1% did not pursue a rehabilitation plan

Of those veterans participating in a plan of services, most follow the employment path and may receive services that include career counseling, employment planning, training or education, medical or dental care and other supportive services. Veterans following the independent living path strive to achieve maximum independence in daily living.

Some of the veterans participating in VR&E have a serious employment handicap, which means there is significant impairment of a veteran's ability to prepare for, pursue, or retain employment consistent with the veteran's abilities, aptitudes, and interests.

Veterans with Serious Employment Handicaps Fiscal Year 2006				
Case Status	Total Veterans	Males w/Serious Employment Handicaps	Females w/ Serious Employment Handicaps	Total Veterans w/ Serious Employment Handicaps

The employment assistance needs of each veteran are assessed and a plan of services developed that will lead to suitable employment. Services may include job market exploration, job-seeking skills, resume preparation, interview skills, and other assistance. The following table reflects those veterans participating in Vocational Rehabilitation and Employment by training program during fiscal year 2006.

Veterans Participating in a Vocational Training Program During Fiscal Year 2006

Source: VR&E Program Management Reports			

Upon completion of the individualized evaluation process, the veteran enters a rehabilitation program to become job-ready in the selected vocational choice or to achieve the maximum ability to live independently in the community. The length of time that a veteran remains in a rehabilitation program varies according to the veteran's individual circumstances. The average time spent in a program is approximately two and one-half years.

The next table shows annual earnings pre- and post- VR&E program participation for those veterans who were successfully rehabilitated.

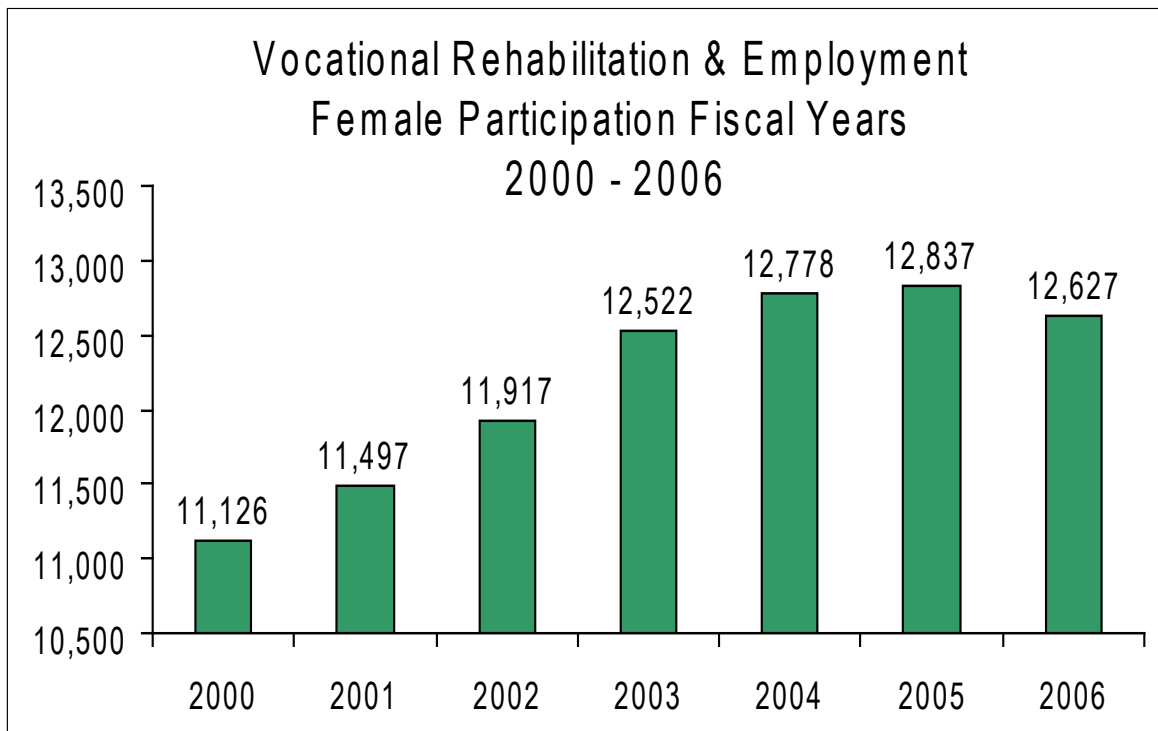

Veterans Successfully Rehabilitated Pre & Post Annual Earnings by Occupational Category-Fiscal Year 2006					
		Male		Female

The two charts below present data on the number of applicants in the VR&E program as well as the number of female participants over the past seven fiscal years.

VR&E Fiscal Year 2006 Program Enhancements

In Fiscal Year 2006, VR&E developed several creative and promising methods to assist veterans in returning to work and maintaining suitable employment. Several outreach methods piloted in the prior year progressed into practical programs this year, including the Five-Track Employment Model, building partnerships, and the 'Coming Home to Work' initiative. This year also saw the inauguration of a very pro-active website offering a significant informational resource to VR&E participants.

VR&E initially established job resource labs in several pilot stations. The labs and training sessions helped to standardize the methodology and structure of the Five-Track Employment Model. This approach aids VR&E staff and veterans in conducting comprehensive analyses of local and national job outlooks, developing job search plans, preparing for interviews, developing resumes, and conducting thorough job searches. In fiscal year 2006, VR&E completed implementation of the program nationwide. The job resource lab is an integral part of the Five-Track Employment Model.

VR&E has improved partnerships through the development or updating of memoranda of understanding with the Department of Defense, Department of Labor, Council of State Administrators of Vocational Rehabilitation Programs, service organizations such as Disabled American Veterans and Veterans of Foreign Wars, public and private employers such as the Army Materiel Command and The Home Depot. These partnerships foster and expand employment opportunities for veterans with disabilities.

The "Coming Home To Work" initiative is a collaborative partnership between VR&E and federal agencies to provide civilian work experience to interested servicemembers who are in a medical-hold status at military treatment facilities and who meet VR&E eligibility requirements. The

"Coming Home to Work" initiative provides all necessary rehabilitation and employment services to veterans with disabilities so they may access job opportunities – especially servicemembers returning from OIF and OEF and those who are medically discharged from the military.

In support of better access to information and references for veterans, VR&E launched a website this year at VetSuccess (www.vetsuccess.gov). This website serves to explain veteran eligibility and VR&E benefits and services, and offers other relevant information and tools to as many active military personnel and veterans as possible.

Summary

Fiscal Year 2006 saw a slight decrease in program applicants, while the number of successful rehabilitations remained about the same. While overall participant numbers show little variance, progressive qualitative improvements to service continue to impact benefits delivery. The rate of successful rehabilitation outcomes for program participants has risen each year, from 58.9% in fiscal year 2003, to 61.9% in fiscal year 2004, 63.3% in fiscal year 2005, to the current figure of 73.1%.

Fiscal Year 2006 was a dynamic, productive year, as VR&E Service initiated the Five-Track Employment Model, expanded the availability of job resource labs, made the informative and useful VetSuccess website available, and expanded partnerships with other Federal agencies, VSOs and private employers to promote, build and expand employment opportunities for veterans with disabilities.

GLOSSARY

AID AND ATTENDANCE – An additional monetary allowance payable to individuals who are:

- In a nursing home or
- In need of daily care to help with feeding, dressing, attending to the wants of nature, protecting oneself from hazards of the daily environment, or keeping clean.

APPLICANTS (VR&E) – Veterans who have applied for Vocational Rehabilitation and Employment services.

BENEFITS DELIVERY AT DISCHARGE (BDD) – Program to assist active duty personnel in filing for VA benefits prior to their separation or retirement from active duty. VBA provides information about VA benefits and assistance in filing benefit claims.

BODY SYSTEMS – Title 38, Code of Federal Regulations, Part 4, classifies the various areas of the body into fifteen (15) different systems as follows:

Musculoskeletal System
 Skin
 Auditory
 Mental Disorders
 Digestive System
 Neurological Conditions and Convulsive Disorders
 Cardiovascular System
 Respiratory System
 Endocrine System
 Genitourinary System
 Eye Infectious Diseases, Immune Disorders,
 Nutritional Deficiencies
 Gynecological Conditions
 Dental and Oral Conditions
 Hemic and Lymphatic Systems

BUYER STATUS – A first-time homeowner or previous homeowner.

CASH SURRENDER – A policyholder, upon request, receives the cash value that accrued in his/her life insurance policy, and in return surrenders all rights, title, and interest to his/her basic and/or paid-up additional insurance coverage amounts.

CHAPTER 31 BENEFITS – Vocational Rehabilitation and Employment (VR&E) program provides benefits and services to veterans whose service-connected disabilities limit or prohibit employment options.

CODE OF FEDERAL REGULATIONS (CFR) – VA rules and regulations are contained in Title 38 Code of Federal Regulations (38 CFR). The Secretary of Veterans Affairs is empowered to prescribe all rules and regulations, consistent with existing law, necessary or appropriate to carry out the laws administered by the Department (Section 501, Title 38 USC).

COMBINED DEGREE – The combined degree of disability is expressed as a percentage (from 0 to 100 in increments of 10) and represents the overall disabling effect of a veteran's service-connected disabilities.

COMPENSABLE ZEROS – Disabilities that are independently evaluated at zero percent disabling but produce an employment handicap to warrant a 10 percent combined disability evaluation. This evaluation entitles the veteran to receive disability compensation payments.

COMPUTER SYSTEMS – VBA derives statistical data about veterans from multiple sources and from various computer systems: e.g. VBA Data Warehouse, VBA's Benefits Delivery Network (BDN), the Beneficiary Identification and Records Locator System (BIRLS); and the Board of Veterans' Appeals Control and Locator System (VACOLS).

DENIED ELIGIBILITY (VR&E) – Veterans who have been determined ineligible for VR&E benefits for reasons such as a lack of a qualifying service-connected disability rating.

DENIED ENTITLEMENT (VR&E) – Veterans who have been determined not entitled to VR&E services due to a lack of an employment handicap or a serious employment handicap.

DEPENDENTS' EDUCATIONAL ASSISTANCE (DEA) – Refers to Dependents' Educational Assistance Program (Chapter 35 of the Title 38, U.S. Code). See Survivors' and Dependents' Educational Assistance.

DEPENDENCY AND INDEMNITY COMPENSATION (DIC) – A monetary death benefit payable to eligible surviving spouses, children, and/or dependent parents.

DEPENDENTS – Qualifying dependents for VA benefit purposes are a veteran's spouse and child (natural child, adopted child, or stepchild). A veteran's mother or father may also be considered a dependent generally if there is financial need.

DIAGNOSTIC CODES – VBA uses codes of four digit numeric characters to signify specific medical conditions. These numeric codes are in 38 CFR, Part 4.

DIRECT LOAN - A home loan made by the Department of Veterans Affairs directly to veterans. This is distinct from guaranteed loans, which are made by private lenders and guaranteed by VA.

DISABILITY COMPENSATION – A monetary benefit paid to veterans for service connected disability.

DISABILITY PENSION – A monetary benefit paid to wartime veterans who are age 65 or older, or permanently and totally disabled as the result of a non-service connected disability. In either case, the veteran's annual income must not exceed the limit set by statute in order to qualify for this benefit.

DIVIDEND - A payment to policyholders in participating life insurance programs. It is an allocation of program surplus funds representing the return of premiums not needed to pay claims and expenses, and a distribution of earnings from investment. Dividends are issued annually on the policy anniversary date.

DMDC – The Defense Manpower Data Center maintains the largest archive of personnel, manpower, training and financial data in the Department of Defense (DoD).

NO DOWNPAYMENT OPTION – The VA home loan guaranty program allows the veteran to enter the home buying market with the option of providing no down payment. This option is intended to help the veteran afford the purchase of a suitable home.

EDUCATIONAL ASSISTANCE - A monetary benefit to eligible veterans, dependents, reservists, and service members while they are in an approved training program.

ELIGIBILITY - VA benefits require that the veteran be discharged from active military service under "other than dishonorable" conditions. In addition to this general requirement, there are specific statutory and regulatory requirements for each of the five benefit programs; some of these requirements are described in the sections of this report dealing with the respective benefit programs.

ENTITLED TO SERVICES (VR&E) – Veterans determined to have a disability that presents an employment or serious employment handicap, and for whom it has been determined that vocational rehabilitation should be successful.

ENTITLEMENT (EDU) – The number of months the student is eligible for VA education benefits. This number is usually expressed in months and days the student will be eligible for full-time benefits. Entitlement may vary depending on the education program the individual qualifies under. In no event will entitlement exceed 48 months under any combination of education programs.

ENTITLEMENT (C&P) - Once basic eligibility requirements have been met, decisions on entitlement for C&P benefits are based on statutory and regulatory requirements and the evidence of record that documents these requirements have been met.

EVALUATION FOR ENTITLEMENT TO A PROGRAM OF REHABILITATION SERVICES – The process used to determine whether the veteran’s disabilities cause an employment handicap.

FACE VALUE - That dollar amount of life insurance money that would be paid upon the death of the veteran or at the maturity of the policy, subject to adjustments for indebtedness, dividends, premium overpayments, or “paid-up additions.”

FIRST-TIME HOMEOWNER – A veteran using his home loan entitlement to purchase a home for the first time.

FISCAL YEAR – Any yearly accounting or budgetary period without regard to its relationship to the calendar year.

FISCAL YEAR 2006 – Began October 1, 2005, and ended September 30, 2006. The Department of Veterans Affairs operates under this schedule for accounting and budgetary purposes.

FORECAST OF PROGRAM LIABILITIES – Future liabilities represent payments that the government is obligated to deliver in future years. This is much like the obligation of a life insurance company to pay the face amount of a standard policy to beneficiaries at the time of the insured person’s death.

FUNDING FEE – A fee, required by law, charged to veterans who obtain a VA guaranteed home loan.

FSGLI – Family Servicemembers’ Group Life Insurance was established in 2001 to provide service members, who have Servicemembers’ Group Life Insurance (SGLI) coverage, the opportunity to have life insurance coverage on their spouses and dependent children.

GUARANTEED LOAN – A loan that is federally backed by the VA home loan provision.

HOUSEBOUND – An additional monetary allowance payable to those individuals who are substantially confined to their home or immediate premises as a result of a permanent disability.

INDIVIDUAL UNEMPLOYABILITY – Veterans unable to secure and follow a substantially gainful occupation by reason of service-connected disability will be rated totally disabled, provided that the veteran has a single disability rated 60 percent or more or a combined evaluation of at least 70 percent, with one disability ratable at 40 percent or higher.

KICKERS (EDU) – Amounts contributed by DoD to an education fund on behalf of participants to encourage enlistment or retention in the Armed Forces. (The military services may use different terms such as “Army College Fund” or “Navy College Fund”, etc.) These amounts are added to any other education benefits to which the person may be entitled. Kickers are applicable only to MGIB-AD, MGIB-SR, VEAP and REAP.

LOAN (INS)- An amount borrowed against the cash value of a permanent plan life insurance policy.

LOAN DEFAULTED-GUARANTY CLAIM PAID – Loan Guaranty term used when the borrower defaults on the loan and VA pays the loan guaranty claim.

LOAN GUARANTY PROGRAM – The benefit program whereby VA guarantees a portion of a loan to lenders to facilitate veterans obtaining a home.

MATURED ENDOWMENT – The face amount of life insurance less any indebtedness that is paid to the insured at maturity of the policy, based on the plan of life insurance. The proceeds may be paid as a lump sum or the insured may request installment payments.

MGIB-AD – The Montgomery GI Bill-Active Duty Educational Assistance Program (Chapter 30 of Title 38, U.S. Code) which provides educational assistance to persons who served on active duty in the Armed Forces.

MGIB-SR – The Montgomery GI Bill-Selected Reserve Educational Assistance Program (Chapter 1606 of Title 10, U.S. Code) which provides educational assistance to members of the Selected Reserve or the Ready Reserve of any of the reserve components of the Armed Forces.

NSLI - National Service Life Insurance was established in 1940 to meet the insurance needs of World War II veterans. The program closed in 1951.

ORIGINAL DISABILITY CLAIM – A veteran's first claim for disability benefits, either compensation or pension or both. Any subsequent claim is categorized as a reopened or supplemental claim.

OUTREACH (VR&E) – Various initiatives within the Program to improve communication and to coordinate and maximize employment opportunities with other government agencies, local businesses and VSOs on behalf of service-connected disabled veterans.

PAID-UP ADDITIONS – Policyholders with participating policies can use their annual dividends to purchase additional life insurance. Established in 1972, this is the only way most policyholders may increase their life insurance coverage amount.

PARTICIPANTS (VR&E) – Veterans who are currently receiving subsistence allowance in one of the following VR&E case statuses: extended evaluation, independent living, job ready or rehabilitation to employment.

PEACETIME VETERANS – Veterans who served during a period of time not statutorily defined as a period of war.

PRISONERS OF WAR (POWs) – Veterans who were forcibly detained (confined) by an enemy, foreign government, or hostile force while serving in the active military, naval or air service.

PREVIOUS HOMEOWNER – A person who has had a previous ownership interest in a home.

PROTECTED PENSION – The pension program, both disability and death, replaced by Section 306 Pension, which in turn was replaced by the current pension program under the provisions of PL 95-588. Veterans and survivors receiving either Protected Pension or Section 306 Pension may continue to receive the benefits as long as they continue to meet the basic entitlement requirements of the respective programs.

PURCHASE LOAN – A loan made solely for the purpose of purchasing a home.

RANGE OF DISABILITIES – A disability is evaluated according to the VA Schedule for Rating Disabilities in Title 38, CFR, and Part 4. Extent of disability is expressed as a percentage from 0 percent (for conditions that exist but are not disabling to a compensable degree) to 100 percent, in increments of 10 percent. Most disabilities, however, do not have every 10 percent increment from 0 to 100.

RATING SCHEDULE – 38 CFR, Part 4.

REAP – The Reserve Educational Assistance Program (Chapter 1607 of Title 10, U.S. Code) which provides educational assistance to members of the Guard and Reserves who serve on active duty in support of a contingency operation under federal authority on or after September 11, 2001.

REGIONAL OFFICE (RO) – A VA field office composed of divisions which carry out the functions of VBA. Fifty-seven such offices exist throughout the United States, the District of Columbia, Puerto Rico, and the Philippines.

REHABILITATED (VR&E) – Veterans who have successfully found and maintained suitable employment or have successfully completed the independent living program.

RESERVIST – A member of a reserve component of one of the armed forces who has potential entitlement to certain VA benefits by reason of his or her reserve status, including educational assistance under Title 10 of the United States Code, Chapter 1606.

RESTORED ENTITLEMENT (LGY) – Previously used entitlement may be restored when a property secured by a VA loan is sold and the loan is paid in full or when an eligible veteran transferee agrees to assume the outstanding balance on a VA loan and substitute his/her entitlement for the same amount originally used on the loan.

SDVI – Service-Disabled Veterans Insurance was established in 1951 to meet the insurance needs of veterans with service-connected disabilities. SDVI is open to veterans who received other than dishonorable discharge separated from the service on or after April 25, 1951, and who received a service-connected disability rating of 0 percent or greater within the last two years.

SECONDARY MARKET – The financial market where mortgages are bought and sold.

SERVICE-CONNECTED – A disease or injury determined to have occurred in or was aggravated by military service.

SERIOUS EMPLOYMENT HANDICAP – A significant impairment, caused in whole or in part by a service-connected disability, in the veteran’s ability to prepare for, obtains, or retain employment consistent with his or her abilities, aptitudes, and interests.

SERVICE MEMBER – An individual who is currently serving on active duty. This individual is also referred to as a “service person.”

SGLI – Servicemembers Group Life Insurance was established in 1965 to meet the insurance needs of service members.

SPECIALLY ADAPTED HOUSING GRANTS – A one-time grant to a seriously disabled veteran to assist in adapting his or her home to accommodate limitations caused by the disability.

SUBSISTENCE ALLOWANCE (VR&E) – A monthly living allowance paid to a qualified veteran in a program of vocational rehabilitation. The allowance is generally paid to those veterans who are enrolled in education or training programs. The amount is based on training time and number of dependents.

SURVIVORS’ AND DEPENDENTS’ EDUCATIONAL ASSISTANCE (DEA) – Under Chapter 35 of Title 38, U.S. Code, a monetary educational benefit payable to eligible dependents and survivors of veterans.

TITLE 38 CODE OF FEDERAL REGULATIONS – Regulations that pertain to veterans’ benefits.

TOTAL DISABILITY INCOME (INS) - An option available with some insurance policies that provides for monthly payments to policyholders who, prior to their 65th birthday, have incurred a mental or physical disability which prevents them from performing substantially gainful employment.

TOTAL AND PERMANENT DISABILITY – Total ratings are authorized for any disability or combination of disabilities for which the Schedule of Rating Disabilities prescribes a 100 percent evaluation or, where less than 100 percent, the requirements for Individual Unemployables are met. Permanence of total disability is considered to exist when the impairment is reasonably certain to continue throughout the life of the disabled veteran and generally requires no future medical exams.

TSGLI – The Traumatic Injury Protection Program provides automatic traumatic injury coverage to all service members covered under the Servicemembers’ Group Life Insurance (SGLI) program. Every member who has SGLI also has TSGLI effective December 1, 2005. This coverage applies to active duty members, reservists, funeral honors duty and one-day muster duty. This benefit is also provided retroactively for members who incur certain severe losses as a result of a traumatic injury between October 7, 2001, and December 1, 2005, if the loss was the direct result of injuries incurred in Operations Enduring Freedom or Iraqi Freedom.

USGLI – United States Government Life Insurance was established in 1919 to meet the insurance needs of World War I veterans. This program closed in 1951.

VEAP – The Veterans Educational Assistance Program (Chapter 32 of Title 38, U.S. Code) is a contributory educational assistance program for Post-Vietnam Era veterans.

VETERAN - A person who served in the active military, naval, or air service, and who was discharged or released under conditions other than dishonorable.

VGLI – Veterans Group Life Insurance was established in 1974 to meet the insurance needs of veterans after separation from service.

VMLI – Veterans Mortgage Life Insurance was established in 1971 to provide mortgage protection life insurance to severely disabled veterans who have received grants for the purchase of specially adapted housing.

VR&E – The Vocational Rehabilitation and Employment (VR&E) Program is available to help service-disabled veterans become employable and live independently.

VRI – Veterans' Reopened Insurance was established in 1965 to provide insurance protection for certain classes of disabled veterans from World War II and the Korean Conflict. The program closed in 1966.

VSLI – Veterans Special Life Insurance was established in 1951 to meet the insurance needs of veterans who served during the Korean Conflict and post-Korean era. The program closed in 1956.

ZERO (0) PERCENT DISABILITY – A zero percent disability rating means that a disability exists and is related to the veteran's service but is not so disabling that it entitles the veteran to compensation payments. Also called a non-compensable disability.
