Section I

Section I**A. Submission Statements for Part C of IDEA**

Select 1 or 2 below. Check 3 if appropriate.

1. The State's policies, procedures, methods, descriptions, and assurances meet all application requirements of Part C of the Act as found in PL 108-446, the Individuals with Disabilities Education Improvement Act of 2004 and applicable regulations (IDEA). The State is able to provide and/or meet all policies, procedures, methods, descriptions, and assurances, found in Sections II.A and II.B of this Application.
- By selecting this submission statement the State has submitted the new and/or revisions to State policies, procedures, methods, and descriptions that meet all requirements found in Section II.A.
2. The State cannot provide policies, procedures, methods, descriptions, and/or assurances for all application requirements of Part C of the Act as found in PL 108-446, the Individuals with Disabilities Education Improvement Act of 2004. The State has determined that it is unable to provide the policies, procedures, methods, descriptions, and/or assurances that are checked 'No' in Sections II.A and II.B. However, the State assures that throughout the period of this grant award the State will operate consistent with all requirements of IDEA in PL 108-446 and applicable regulations. The State will develop and/or make such changes to existing policies, procedures, methods, descriptions, and assurances as are necessary to bring the policies, procedures, methods, descriptions, and assurances into compliance with the requirements of the IDEA, as amended, as soon as possible, and not later than June 30, 2009. The State has included the date by which it expects to complete necessary changes associated with policies, procedures, methods, descriptions, and assurances marked 'No'. The items checked 'Yes' are enclosed with this application.¹

Optional:

3. The State is submitting new or modified State policies and procedures previously submitted to the Department and has checked, under Section II.A, the appropriate 'R' cell(s) found in the 'Yes' column. These modifications are: (1) deemed necessary by the State, for example when the State revises applicable State law or regulations; (2) required by the Secretary because there is a new interpretation of the Act or regulations by a Federal court or the State's highest court; and/or (3) because of an official finding of noncompliance with Federal law or regulation.

B. Conditional Approval for Current Grant Year

If the State received conditional approval for the current grant year, check the appropriate statement(s) below:

1. Conditional Approval Related to Assurances in Section II.A:

- a. Sections II.A and II.B provide documentation of completion of all issues identified in the FFY 2007 conditional approval letter.
- b. As noted in Sections II.A and II.B, the State has not completed all issues identified in the FFY 2007 conditional approval letter.

2. Conditional Approval Related to Other Issues:

- a. The State previously submitted documentation of completion of all issues identified in the FFY 2007 conditional approval letter.
- b. The State is attaching documentation of completion of all issues identified in the FFY 2007 conditional approval letter. *(Attach documentation showing completion of all issues.)*
- c. The State has not completed all issues identified in the FFY 2007 conditional approval letter. *(Attach documentation showing completion of any issues and a list of items not yet completed.)*

¹ If Option 2 is checked, the State is to provide dates in Sections II.A and II.B as to when the required policies, procedures, methods, descriptions, and assurances will be provided, which date can be no later than June 30, 2009. The State will be granted conditional approval until it can provide all policies, procedures, methods, descriptions, and assurances.

B. Maintenance and Implementation Activities for the Lead Agency

Major Activity	Part C Funds to be Spent	Description of Activities
Public Awareness & Central Directory	\$417,000	See narrative below
Comprehensive System of Personnel Development (CSPD)	\$2,268,000	See narrative below
Procedural Safeguards	\$180,000	See narrative below
Subtotal of amount under B:	\$2,865,000	

A. Public Awareness and Central Directory \$417,000

The allocation for this component represents the portion of the public awareness efforts conducted under the direction of the lead agency through a contract with the WestEd Center for Prevention and Early Intervention for the Early Start Resources (ESR) project. Funds are used to develop and maintain printed brochures and materials for the purpose of public awareness and outreach (child find) activities related to Early Start. Input on the content of the outreach materials is obtained from the ICC and the Family Resource Center Network of California, when appropriate. Funds are also used to disseminate, reprint, revise, or prepare additional translations of Early Start outreach materials developed with Part C funds. Activities focus on meeting the diverse needs of the population of California and ensuring continued awareness of Early Start by families, professionals, hard to reach and historically underrepresented populations, and primary referral sources.

Funds under this category also support the maintenance and dissemination of the Central Directory. The electronic database for the Central Directory is updated by the WestEd contractor and copies are printed and widely disseminated throughout the State each year. The Central Directory is also available electronically on the DDS website at www.dds.ca.gov/earlystart. California's Central Directory meets the federal requirement by enabling the general public to determine the nature and scope of the early intervention service system and how to access assistance throughout the State. A toll-free telephone number for Early Start, 800-515-BABY, is also included in outreach materials. Both English and Spanish inquiries can be handled through the toll-free line. Inquiries can also be submitted by e-mail to the following address: earlystart@dds.ca.gov.

The contractor also maintains an ESR Library in Sacramento, California. Early intervention resource materials, including videos, books and other written materials are available for checkout. The public is informed of accessibility of the early intervention library at conferences, workshops, and meetings, through technical assistance and resource contacts, and on electronic bulletin boards. Access to the library materials is provided via walk-in, mail, or toll-free at 800-869-4337. The ESR Library materials are also listed online on the WestEd Center for Prevention and Early Intervention website at www.wested.org/cpei.

B. Comprehensive System of Personnel Development (CSPD) \$2,268,000

The allocation for this component represents the portion of the CSPD activities conducted under the direction of the lead agency through a contract with the WestEd Center for Prevention and early Intervention for the California Early Intervention Technical Assistance Network (CEITAN) project. The following components are included in this contract:

1. Early Start CSPD Statewide Training Institute Series \$1,182,000

The institute series deliver training in early intervention competencies based on a curriculum developed in collaboration with representatives of colleges and universities and professional organizations of the various disciplines identified in Part C. In addition to the curriculum institutes, presents as the Cores I-III, training institutes are provided specifically for service coordinators and supervisors of service coordinators. The curriculum for these training institutes is supported by a Service Coordinator’s Handbook. In addition, special topics trainings are held each year and are designed to meet State and locally identified personnel and program development needs. The series of institutes and trainings are scheduled throughout the year at various locations within California.

In order to support California’s unique Part C funded Family Resource Centers (FRCs), an annual training institute is held specifically for personnel working at an FRC (primarily parents).

Information on all Part C training events is available on the DDS and WestEd websites.

2. Early Start Personnel Development Scholarship Fund \$350,000

Part C scholarship funds are available to early intervention service providers and FRCs in order to maximize opportunity and access to applicable training events, as well as college course work scholarships, grants for local training events, and start-up grants to promote early intervention personnel development programs that include interagency and family collaboration components.

3. Community College Personnel Preparation Project \$177,000

This is a special project addressing all aspects necessary to implement a curriculum program and Early Intervention Assistant Certificate in coordination with the California Community College Chancellor’s Office.

4. Consultant Network and Other Contract Tasks \$559,000

The Consultant Network provides assistance to DDS in the implementation of a technical assistance model that includes support for field consultants participating in monitoring site visits, follow-up to site monitoring visits or complaint investigations, special projects, and the provision of support and assistance to FRCs. WestEd staff also assists DDS in providing support to the State ICC and ICC Sub-Committees. All CSPD activities are coordinated with other statewide personnel development efforts, including CSPD efforts under Part B of IDEA.

C. Procedural Safeguards: Mediation and Due Process Hearings \$180,000

DDS allocates Part C funds through a contract/interagency agreement with the Office of Administrative Hearings, Department of General Services, under the Secretary of and State and Consumer Services Agency, to conduct state-level mediation (if requested by the family) and due process hearings, and to provide records of the proceedings along with written decisions.

C. Description of Use of Part C Funds for the Interagency Coordinating Council - \$223,911

D. Maintenance and Implementation Activities for the Interagency Coordinating Council (ICC)

California continues to provide funds to support the ICC's estimated annual expenditures by the categories listed below.

Major Activity	Part C Funds to be Spent	Description of Activities
General Expenses	\$44,000	Includes communications, postage, printing, copying, and meeting room costs.
Travel	\$50,000	Travel for attendance at ICC meetings and work groups.
Subtotal of amount under D:	\$94,000	

E. Direct Services (Funded by Part C Federal Dollars)

Part C funds augment services for eligible children served through the regional center system and Local Education Agencies (LEAs) and ensure the year-round, statewide availability of services. The funds also support the supplemental operational costs due to the implementation of Early Start.

Direct Service	Part C Funds to be Spent	Summary of Methods to be Used to Provide Service
California Department of Education – Local Education Agencies	\$14,200,000	See narrative below.
Department of Developmental Services – Regional Centers	\$31,663,092	See narrative below.
Family Resource Center/Networks	\$2,750,000	See narrative below.
Subtotal of amount under E:	\$48,613,092	

A. California Department of Education – Local Education Agencies (LEAs) \$14,200,000

A significant direct service expansion, due to the implementation of Early Start in California, was the extension of services statewide to infants and toddlers with solely low incidence disabilities: vision impairment, hearing impairment, severe orthopedic impairment, or any combination, thereof, who are not eligible for services under the Lanterman Developmental Disabilities Services Act. The California Early Intervention Services Act established a statewide mandate for LEAs to provide services to infants and toddlers with solely low incidence disabilities who do not qualify for regional center services. In order to meet the needs statewide of unserved infants and toddlers with solely low incidence disabilities, existing LEA programs were expanded or initiated, as needed, during the first year of full implementation of Early Start. In developing new programs or planning expansions, LEAs and regional centers took into account private service programs and evaluated contracting for services. Even though children with solely low incidence disabilities may also be receiving services from other public or private non-profit agencies, special education local plan agencies are the payor of last resort for services to infants entering the Early Start service system with solely low incidence disabilities who are not eligible for regional center services. In addition, funding for regionalized services, program specialists, books, materials, assistive devices, equipment, specialized services and other special regionalized projects are included in the funding estimate for LEAs. The expense of additional marginal impacts of Early Start (timelines, assessments, IFSPs, and service coordination/interagency coordination) for the population to be served by LEAs is also included in the proposed expenditure.

LEAs are required to receive and act on referrals for services, perform evaluations, conduct assessments, and develop IFSPs in accordance with federal regulations. In addition, LEAs are required to report information that satisfies the federal Office of Special Education Programs and the California Department of Finance data reporting requirements.

B. Department of Developmental Services \$31,663,092

Regional centers are required to conduct child find activities, receive and act on referrals for services, perform evaluations, conduct assessments, and develop IFSPs in accordance with federal regulations. The regional centers are considered the payor of last resort for services to all infants and toddlers entering the Early Start service system who do not have a solely low incidence disability. A portion of the funds provided to regional centers for operations adjusts for the marginal cost impact of replacing the State's Individual Program Plan (IPP) process and time lines with the IFSP process and time lines. The allocation also addresses clinical support in order to assist in developing assessment information in a timely manner as well as service coordination and interagency coordination. Operations funding also addresses the activities to ensure compliance with federal fiscal and audit requirements that presented new and expanded demands on regional center administration. Regional centers are also required to report information that satisfies the federal Office of Special Education Programs data reporting requirements. Federal funds are allocated to regional centers for data collection, reporting, and technical and clerical support activities related to Early Start.

The other portion of the funds allocated to regional centers under this part addresses the increased cost for direct services due to the implementation of Early Start. Costs due to the implementation of Part C in California far exceed the Part C allocation. This impact over and above the Part C funds is born by the State's General Fund.

California's Department of Developmental Services contracts with 21 private, not for profit corporations to operate regional centers throughout the state which are responsible under state law for coordinating, providing, arranging or purchasing all services needed for eligible infants/toddlers and their families under the Early Start Program.

C. Early Start Family Resource Centers (FRCs) \$2,750,000

Parent-to-parent, family-centered support is an important factor of Early Start in California. FRCs provide parent/family support in a non-clinical family-centered atmosphere. They also assist in fulfilling an information and referral function. Through parent-to-parent support, FRCs understand the emotional needs of families, and provide assistance in understanding the local service process and transitions. The FRCs provide a foundation for family and professional collaboration, promoting positive relationships and joint problem solving in early intervention services.

FRCs also assist in local public awareness efforts and often fulfill the initial information and referral function with locally publicized toll free telephone numbers in English and Spanish. FRCs have a large cadre of parent volunteers of differing backgrounds and ethnicities that represent the people that live within their communities. They assist with outreach to the populations often hardest to reach, which may include racial and ethnic minority groups, low-income, inner-city, and very rural population.

F. Description of Optional Use of Part C Funds (For States that Do Not Provide Direct Service for At-Risk Infants and Toddlers)

For any State that does not provide direct services for at-risk infants and toddlers under 20 U.S.C. 1437(a)(4), but chooses to use funds under 20 U.S.C. 1438(5), each Application must include a description of how these funds will be used. Specifically, a State may use Part C funds for initiating, expanding, or improving collaborative efforts related to at-risk infants and toddlers, including establishing linkages with appropriate public or private community-based organizations, services, or personnel for the purpose of:

- Identifying and evaluating at-risk infants and toddlers;
- Making referrals of at-risk infants and toddlers who are identified and evaluated; and
- Conducting periodic follow-up on at-risk infants and toddlers to determine if the status of the infant or toddler's eligibility for Part C services has changed.

Section IV

Section IV**A. System of Payments / Use of Insurance / Program Income**

The State

 does (check as applicable) does not (check as applicable)

have a system of payments for Part C services under 20 U.S.C. 1432(4)(B) which may include use of public and/or private insurance or family fees, such as a sliding scale. Any family fees are treated as 'program income' for purposes of 34 CFR §80.25 and are not included in the State's determination of State and local expenditures for purposes of 20 U.S.C. 1437(b)(5)(B). *Note: If the State has adopted new or has revised its existing policies and procedures regarding its system of payments, it must submit these new and/or revised policies and procedures under Item 7 in Section II.A above.*

B. Restricted Indirect Cost Rate/Cost Allocation Plan Information

(Note: To be completed if Lead Agency is not a State Educational Agency.)

If the lead agency is not a State educational agency (as well as any outlying areas that have the Department of Interior as its cognizant Federal agency, even if an SEA) check the applicable status below (more than one check mark may be necessary) and enclose appropriate documentation for this Federal Fiscal Year.

The lead agency has a final restricted indirect cost rate or cost allocation plan that has been approved by the State lead agency's cognizant Federal agency and is in effect for this Federal fiscal year (FFY) (ending on June 30, 2009). (Attach a copy of the approved restricted indirect cost rate agreement or cost allocation plan.)

The lead agency has either a provisional or final restricted indirect cost rate or cost allocation plan that expires or expired on 06/30/2008 and the State is in the process of negotiating a new restricted indirect cost rate agreement or cost allocation plan that will be in effect for the period 07/01/2009.² The State lead agency will continue to charge or bill the Part C grant using the provisional or previously approved final restricted indirect cost rate or cost allocation plan until a new rate or plan is negotiated and approved by the State's cognizant Federal agency, at which point the State lead agency must make appropriate adjustments for applicable FFYs. The State acknowledges that a final restricted indirect cost rate may result in an adjustment of the final audited expenditures allowable to be charged to the Part C grant and the Department's approval of this FFY Part C application with an expired or provisional restricted indirect cost rate does not constitute approval of that rate as the final rate for the lead agency for this FFY. When a final restricted indirect cost rate is approved, the lead agency must submit to OSEP: (1) a copy of the "final" restricted indirect cost rate agreement; and (2) details of adjustments made to past GAPS draw downs in light of the "final" rate. (Attach a copy of the previously approved restricted indirect cost rate agreement or cost allocation plan.)

No indirect costs are charged to the Part C grant. The total amount of the Federal Part C grant is used for allowable direct costs.

Other, explanation attached.

² A "provisional" indirect cost rate is a temporary rate established for a future prospective period of time to permit budgeting, obligations, and payment of funds by awarding agencies until such time as the actual indirect costs can be determined and a final rate is established for the applicable period; provisional rates are subject to adjustment by issuance of a "final" rate based on actual indirect costs incurred for the period (usually the organization's fiscal year).
