Betty Bumpers, Cofounder  
Every Child By Two  
666 11<sup>th</sup> Street, NW, Suite 202  
Washington, DC 20001-4542

Dear Ms. Bumpers:

Please accept NAPNAP's support and endorsement of Immunization Registries. NAPNAP believes that immunization registries offer an effective solution to ensure access to accurate immunization records to pediatric health care providers, enable automated assessment of immunization needs, and permit automated generation of reminders when children are due or late for immunizations.

NAPNAP encourages Pediatric Nurse Practitioners to participate in the development of immunization registries in their communities and to use such registries in their practices.

We wish you much success in this important health care initiative.

Sincerely,

*Barbara R. Kelley*

Barbara R. Kelley, EdD, RN, MPH, CPNP
