Forecasts Available Electronically

Forecasts from the most recent edition of this publication are also available on the IRS's web site. This site can be reached at www.irs.gov. Select the "Tax Stats" link, then "Products and Publications", and then "Projections" (under the Publications heading). IRS employees can also access this projection product on the IRWeb intranet site by selecting the "Commissioner" link, followed by "Research, Analysis and Statistics", then "Publications," and then "Projections and Forecasting documents."

Distribution

If you are an IRS employee and would like to receive a printed copy of this document on a continuing basis, please contact your local IMDDS coordinator and obtain the appropriate protocol for inclusion on the distribution list. All non-IRS customers, and IRS customers uncertain of their local IMDDS coordinator, can contact the Chief, Forecasting and Service Analysis at (202) 874-0607.

Overview

This 2007 edition of IRS Document 6186, *Calendar Year Return Projections for the United States and IRS Campuses*, provides the most recent revisions to the number of tax returns to be filed for the United States and IRS processing campuses by major return categories for Calendar Year (CY) 2007 through 2014. Also contained in this document are projections of the number of returns to be filed for the United States by IRS examination class groupings. These projections provide a foundation for IRS workload estimates and resource requirements contained in IRS budget submissions and other major planning documents. The Office of Research staff within the IRS Research, Analysis and Statistics organization develops and updates these forecasts annually to reflect changes in filing patterns, statutory requirements, and administrative procedures. The updates also incorporate the current economic and demographic outlook. The projections in this document are based on information available as of August 2007.

Enacted tax law changes and confirmed (or reasonably certain) administrative plans are reflected in these return projections. However, legislative or administrative initiatives simply under consideration generally are not used to update these return projections. In particular, the projections of electronically filed (e-file) returns contained in this publication are not goals, per se, and should not be interpreted as precluding an alternative e-file future.

Data Sources and Projection Methodology

The reported actual volumes of returns filed in CY 2006 are based on returns processed and recorded on the IRS master files. With a few exceptions, these volumes are based on the same master file reporting systems as those used in the Internal Revenue Service Data Book (Publication 55B). However, master file counts were not available in a few instances. In these cases, tallies of actual filings were provided by program staff in the IRS operating divisions, typically from data capture systems located in the IRS processing campuses.

The forecasts presented in Document 6186 are based on various statistical models that capture and extrapolate historical filing trends, by each unique form type and medium of filing. Most models use time series extrapolation methods such as trended exponential smoothing approaches. However, some return types, particularly individual income tax filings, are based on regression models that use economic and demographic variables such as total employment and gross domestic product as key input factors. In these instances, forecasts of the economic and demographic data series used by Research staff as the predictor variables are provided by Global Insight, Inc. Also, where historical data are limited or non-existent, such as for new e-file products, the filing pattern for a comparable return type is applied. Customers interested in obtaining more detail on forecasting

methodologies are welcome to contact the applicable staff member listed on the inside front cover.

Impact of Recent Legislative and Administrative Changes

As noted, the effects of enacted legislation and administrative plans are embedded in these projections. The more significant of these changes are discussed below.

Reconfiguration of IRS Campus Processing Sites

IRS modernization efforts, built in part on the strong growth in electronic filing (e-file), have resulted in a major redistribution and consolidation of returns processing operations among the traditional IRS submission processing campuses. In CY 2002, the IRS began processing most paper individual returns at eight campuses, and transitioning a large portion of paper business and exempt organization returns to two other processing sites, Ogden and Cincinnati. In CY 2004, IRS moved to a configuration where seven campuses handled all returns associated with individuals, and Ogden and Cincinnati handled virtually all of the business (and tax exempt) returns. IRS consolidation efforts have continued with the closure of the Memphis campus at the end of June 2005 and with the Philadelphia campus ending its paper individual returns processing operations in mid-2007.

It is also important to note that the CY 2008 campus level projections for paper returns are based on approved IRS campus alignment plans. The remaining forecasts for CY 2009 and beyond are based on "concept maps" provided by resource planning staff in the IRS submission processing function. These "concept maps" are subject to change, so customers are advised to keep this important caveat in mind in using the campus level projections beyond 2008.

The CY 2008 electronic filing (e-file) campus volumes are also based on approved IRS plans. Filing volumes for CY 2009 and beyond are based on the recently approved strategy to continue processing individual e-file returns at all five current individual e-file submission processing sites. Although the processing of paper returns at the Philadelphia Submission Processing Center has come to an end after its consolidation in June 2007, electronic returns - excluding International returns - will continue to be processed through the Philadelphia Access Location Number (ALN). The Ogden campus will have accountability for the e-file returns processed on Philadelphia's ALN as well as for the accounting function for the back end operations. Subsequent year consolidations of e-file processing sites will result in similar adjustments.

The configurations of state to IRS processing campuses for paper and e-filed business and individual returns for CY 2006 through CY 2014 are presented in tables at the end of this document. In most instances, the campus where a taxpayer files her return depends upon the taxpayer's state, the form type, and the medium of filing (paper versus electronic). In addition, the state-to-processing campus alignments for individual paper returns differ by year, as do some of the

alignments for electronically filed individual returns. There are also some subtleties about the distribution of returns filed among the two business return campuses. In certain cases, the specific form type being filed, or the IRS-defined business operating division classification of a return (i.e., Small Business/Self-Employed, Tax Exempt/Government Entity, or Large and Mid-Sized Business), overrides the geographic criterion. The tables presented at the end of this document starting on page 27 list the various campus configurations reflected in the campus level projections contained in this edition of Document 6186.

Telephone Excise Tax Refund (TETR)

In May 2006, the Treasury Department announced that it would no longer collect taxes on the federal excise tax for long-distance telephone service and in 2007 taxpayers were given the option to obtain their refunds by either claiming standard amounts on their 2006 tax forms or file for the entire amount collected on long-distance service for the past three years on Form 8913. The standard amounts varied by household size whereby a household with one exemption could claim \$30, two exemptions - \$40, three exemptions - \$50, and a household with four or more exemptions could claim \$60. Individuals who did not have a tax filing obligation and were due a refund could file Form 1040-EZ-T for their standard amount or Form 8913 for an itemized refund.

The estimates and projections in this document do not contain any direct effects of the TETR initiative. The 2007 year to date trends for the individual Form 1040 series are atypical due to additional returns filed as a result of TETR filings. Specifically, segments of the TETR only population filed a traditional Form 1040 return instead of the simpler Form 1040-EZ-T. In an effort to maintain the integrity of pre-TETR baseline estimates, the Document 6186 tables here show 2007 U.S. and campus level individual return estimates without expected TETR affects. The projections and methodology for 2008 and on also exclude consideration of any residual TETR effect.

According to current estimates based on master file data received as of October 2007, an additional 1.5 to 2.0 million returns are expected to be filed due to TETR. The estimated number of total Forms 1040, 1040-A, 1040-EZ reported here for CY 2007 is 135,955,400 which is the "TETR Excluded" estimate. We expect the total "TETR Included" estimate to be between 137.5 and 138.0 million. Almost 80 percent of the 'excess' TETR volume is paper. Again the "TETR Excluded" estimate for total paper individual returns for CY 2007 is 56,493,100, and we expect the "TETR Included" number to be about 58.0 million.

E-file Mandates

In January 2005, the IRS released temporary regulations which imposed e-file mandates for some large corporations and tax exempt organizations whose assets exceed certain thresholds. However, these e-file mandates only apply to those corporation and tax exempt entities that file at least 250 other returns with the IRS

during a calendar year; these include tax returns such as Forms 941, as well as information returns such as Forms W-2, 1099-DIV and Schedules K-1. The e-file mandates required corporations with total assets of at least \$50 million to e-file their Forms 1120 and 1120-S returns beginning in January, 2006. This e-file requirement was expanded to corporations with at least \$10 million in assets effective at the beginning of CY 2007. Similarly, tax exempt organizations with \$100 million or more in assets in tax year 2005 were required to file their Form 990 electronically, with this threshold lowered to \$10 million beginning in CY 2007. Also impacted in CY 2007, are private foundations and charitable trusts which will be required to file their Form 990-PF electronically, regardless of their asset size. Corresponding adjustments have been made to the e-file forecasts for Forms 1120, 1120-S, 990 and 990-PF in this edition of Document 6186 to account for the impact of these new e-file mandates.

Expansion of Form 7004

The projections in this publication reflect the expanded scope for Form 7004. Previously, this form was only used to request an extension to file a corporation income tax return (i.e., Form 1120 series). The new expanded Form 7004 will now be used to file extensions for not only corporate returns, but also for partnership (Form 1065), fiduciary (Form 1041), estate (Form 706-GS(D)/GS(T)), as well as certain information returns.

Excise E-file Estimates

The American Jobs Creation Act of 2004 includes a mandate requiring Form 2290 (*Heavy Highway Vehicle Use Tax Return*) filers reporting 25 or more trucks to e-file beginning in July 2005. Although the implementation date for the e-file system was initially delayed, the IRS began providing e-file capabilities starting in August 2007. With the system in place, Form 2290, as well as Form 720 (*Quarterly Federal Excise Tax Return*), can now be electronically filed. This edition of Document 6186 includes forecasts of excise returns based on the latest confirmed implementation date in CY 2007.

Changes in Estate Tax

The estate tax and generation-skipping transfer (GST) taxes will be repealed on January 1, 2010, under Title V of the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA). However, the estate tax repeal, and all other provisions of EGTRRA, are scheduled to sunset on December 31, 2010. If the sunset provision is not repealed in 2011, estate tax law would return to the law in place prior to the enactment of EGTRRA on June 7, 2001. Accordingly, the estate tax exclusion amount would have risen to \$1 million under the prior law. The estimates developed in this document reflect these provisions of EGTRRA.

New Form 944

In an effort to reduce taxpayer burden on small businesses, IRS offers Form 944 (*Employer's Annual Federal Tax Return*), which is an annualized version of Form 941 (*Employer's Quarterly Federal Tax Return*). Form 944 will be available to business filers with annual employment tax liability of \$1,000 or less. Instead of filing quarterly Form 941 returns, eligible taxpayers will be required to file Form 944 once a year. Consequently, as qualified taxpayers switch to filing Form 944, return volumes of Form 941 will drop. Around 650,000 taxpayers are expected to transition to Form 944 in its first year. As a result, this edition of Document 6186 now includes forecasts for the new Form 944, as well as the associated downward impact on Form 941 return volumes for both e-file and paper components.

Fiduciary (Form 1041) Returns

Regulatory changes beginning in CY 2008 for Widely Held Fixed Investment Trusts (WHFITs) is expected to significantly impact electronic filing volumes for Form 1041 fiduciary returns. A large number of non-mortgage WHFIT filers will be required to shift from filing Form 1041 to filing Form 1099-B. This change in volume is estimated to result in a decrease of approximately 500,000 Form 1041 returns, mostly e-filed returns, starting in CY 2008. In this update of Document 6186, the effect is reported in the US and Ogden Campus tables, all occurring in the electronic component.

New Corporation Examination Classes

Five new corporation examination classes have been added to the "Returns with Assets" category. Under this grouping, the old "250 Million or More" examination class is now further split into the following new examination classes by asset size: "\$250 Million Under \$500 Million", "\$500 Million Under \$1 Billion", "\$1 Billion Under \$5 Billion", "\$5 Billion Under \$20 Billion", and "\$20 Billion or More".

Additional Discussion of Trends and Issues in Individual Income Tax Returns

In CY 2006, the share of total electronic volumes over the grand total was around 36 percent; in CY 2007, this share is estimated to be 38 percent and steadily increases to 49 percent in 2014. Individual income tax returns make up over half of the grand total return filings in any given year. In CY 2006, the share of individual Form 1040 series filed electronically was 54 percent, estimated to be slightly over 58 percent in CY 2007, and is forecasted to reach 73 percent by 2014. Readers interested in more detailed discussion of trends and issues in individual income tax returns filings should refer to the 2007 update of IRS Document 6187, *Calendar Year Projections of Individual Returns by Major Processing Categories*.

Track Record of Projection Accuracy

In an effort to measure the quality of our products and services, this section, along with Table 14, provides a brief analysis of the accuracy of prior projections. Using four years of actual data from 2003 through 2006, Table 14 presents the accuracy of our national level projections by major return categories. This analysis covers only the major return categories projected on a calendar year basis and serves as a general measure for gauging the overall reliability of our U.S. level return projections. The return categories considered in Table 14 consist of the following: Grand Total, Total Primary Returns, Individual (income tax) Total, Individual Estimated Tax, Fiduciary, Partnership, Corporation, Employment, Exempt Organizations, and Excise. When there was sufficient data on prior forecasts, we also included selected breakouts of “paper” volumes versus “electronic (e-file)” filings.

The table presents two measures of projection accuracy; the mean absolute percent error (MAPE), and the number of over-projections. We also include the latest actual filing volumes for 2006 to provide perspective on the volume of returns being projected. The MAPE is computed as the average percent projection error regardless of whether they were over- or under- projections over the four most recently applicable projection cycles. The associated number of over-projections can show whether we consistently over- or under- project. A value of two indicates balanced forecasts over the four cycles. The table groups these two measures by time horizon. The time horizon is determined by when the forecast was made and for what future year. For example, a forecast for 2002 made in 1999 would be part of the “3-years-ahead” time horizon. The table presents time horizons from one to five years ahead and factors in the most current four observations. As an example, for the “3-years-ahead” information, we use the forecasts made in 2000 for 2003, those made in 2001 for 2004, those made in 2002 for 2005, and those made in 2003 for 2006.

Comments and Questions

We thank customers for their support as we continually seek to improve our products and services wherever possible. Comments and suggestions regarding this document can be directed to John Guyton, Chief, Forecasting and Service Analysis at (202) 874-0607. Questions concerning a specific tax return listed in this document may also be directed to the projections staff listed on the inside front cover. Finally, the tables contained in this document are also available electronically, as noted on the inside front cover.

Detail may not add to total/subtotal because of rounding.

Figures include all returns filed from all filing media (paper, electronic and magnetic tape).

*The individual return volume contains no direct effects of the telephone excise tax refund. These direct effects are estimated to add 2 to 3 million more returns to the total.

Column Definitions:

- (1) Sum of (2) through (16).
- (2) Forms 1040, 1040-A, 1040-EZ, 1040-NR, 1040-NR-EZ, 1040-PR, and 1040-SS; 1040-C in 1991 and prior years; 1040-PC in 1992 through 2000.
- (3) Number of Form 1040-ES vouchers
- (4) Forms 1120, 1120-A, 1120-F, 1120-H, 1120-S, 1120-L, 1120-PC, 1120-SF, Forms 1120-RIC and 1120-REIT in 1988 and subsequent years; Form 1120-SF replaced Form 1120-DF in 1994.
- (5) Projections reflect phaseout of estate tax filing requirements under the Economic Growth and Tax Relief Reconciliation Act of 2001 and the Act's current sunset provisions.
- (6) Forms 940, 940-PR, 941, 941-E, 941-PR, 941-SS, 943, 943-PR, CT-1 and CT-2; Form 940-EZ in 1990 through 2006; Form 945 in 1995 and subsequent years; Forms 942 and 942-PR in 1995 and prior.
- (7) Forms 990, 990-C, 990-PF, 990-T, 4720, and 5227; Form 990-EZ in 1990 and subsequent years; Excludes 990-C from 2006 when it changes to 1120-C; includes Form 990-N from 2008 onwards
- (8) Forms 8038, 8038-G, 8038-CC, 8038-T, and 8328.
- (9) Forms 1120-POL, 8871 and 8872.
- (10) Forms 11-C, 720, 730, and 2290.
- (11) Form 8752 was introduced in 1991.
- (12) Forms 5500, 5500-CR and 5500-EZ; Form 5500-C and Form 5500-R in 1988 and prior year. IRS ceased processing EP returns in mid-2001, when the Dept. of Labor assumed full responsibility.
- (13) Forms 1040-X, 1120-X, 2688, 4888 and 7004; Form 1041-A in 1992 and prior years. Form 5558, 8668 in 2002 and subsequent years; No direct effects of the telephone excise tax is assumed on Form 1040-X.

Detail may not add to total due to rounding.
¹ Does not include Forms 1040-PR/SS, 1040-NR, 1040-NR-EZ, 1040-EZ-T, 1040-C.
² Includes non-farm business returns (with No EITC) (Sch. C Present and Sch. C Gross Receipts >= Sch. F Gross Receipts)
³ Includes farm business returns (with No EITC) (Sch. F Present and Sch. F Gross Receipts >= Sch. C Gross Receipts)
⁴ In CY 2008, filing requirements for Widely Held Fixed Investment Trusts (WHFITs) will move from Form 1041 to Form 1099.
⁵ The shift of volumes due to the filing change will impact only the 1041 "Other" exam class.
⁶ 1120 "Other" includes Forms 1120-FSC/LND/PC/REIT/RIC/SF.

* Some actuals shown in this table differ from official counts reported elsewhere because they exclude certain return series only recently projected and whose accuracy can not yet be evaluated.

Internal Revenue Service
Office of Research, Forecasting and Service Analysis
Fall 2007

Table Notes

- Detail may not add to total due to rounding.
- Projected volumes are rounded to the nearest hundredth, therefore counts of 49 or fewer are rounded to zero. However, some forms can report zero filings because they are associated with only selected areas, or because their filing options were just established or recently eliminated.
- Actual and forecasted return counts for the major categories are based on IRS master file processing, as recorded in the electronic versions of the *Report of Returns Posted to the IRS Master Files*.
- Complete master file counts for calendar year 2006 were not available for the following forms and had to be supplied at the national level by operating division staff and secondary sources: Forms 1120-ND, 5558, CT-2, 990-N, 1041-A, as well as some of the high asset corporation examination class forms as detailed later.
- For CY 2007, the Internal Revenue Service issued refunds for the “Telephone Excise Tax Refund” (TETR) initiative. For filing year 2007 only, taxpayers can obtain their refunds via a 2006 tax form, Form 1040-EZ-T or they may file actual tax using Form 8913. This document further excludes any other Form 1040 series or Form 990-T returns filed only for purposes of claiming TETR.

Notes below are grouped by applicable tables.

Tables 1 ~ 12

- “Grand Total” is the sum of “Total Primary Returns” and “Supplemental Documents, Total.” The “Total Primary Returns” category is the sum of all forms shown in the tables, excluding all “Supplemental Documents.”
- “Individual Income Tax, Total” is the sum of paper and electronic Forms 1040, 1040-A, 1040-EZ, 1040-NR, 1040-NR-EZ, 1040-PR, 1040-SS and 1040-C.
- “Forms 1040, 1040-A, 1040-EZ, Total” is the sum of paper and electronic Forms 1040, 1040-A, and 1040-EZ.
- Form 1040-EZ-T is excluded from the forecasts.
- “Individual Estimated Tax, Form 1040-ES, Total” includes both paper and electronic Form 1040-ES. Various return categories, such as Form 1040-ES and other business and individual returns, include line items to account for alternative methods of tax filing. The “paper only” components can be derived by subtracting the electronic counts from their respective return totals.

- “Fiduciary, Form 1041, Total” includes both paper and electronic Form 1041.
- “Fiduciary Estimated Tax, Form 1041-ES” is the *Estimated Income Tax for Estate and Trust*.
- “Partnership, Forms 1065/1065-B, Total” includes both paper and electronic Forms 1065 and 1065-B.
- “Corporation Income Tax, Total” includes Forms 1120/1120-A (paper and electronic), 1120-F, 1120-FSC, 1120-H, 1120-L, 1120-ND, 1120-PC, 1120-REIT, 1120-RIC, 1120-S (paper and electronic), and 1120-SF. Form 1120-A, *U.S. Corporation Short-Form Income Tax Return*, is obsolete and can no longer be filed for tax years beginning after December 31, 2006. As a result of the Foreign Sales Corporation (FSC) Repeal and Extraterritorial Income Act of 2000 which repeals provisions in the U.S. Internal Revenue Code relating to taxation of foreign sales corporations, the volume of Forms 1120-FSC is declining with no returns expected after 2007. Also, Form 1120-POL volumes are reported separately under the forms for “Political Organizations.” Form 1120-IC-DISC is not included in these corporation projections.
- “Form 1120-C” is the *U.S. Income Tax Return for Cooperative Associations*. This form replaced Form 990-C starting from CY 2007.
- “Form 2553” is the *Election (to file Form 1120-S) by a Small Business Corporation*. The master file actual count for CY 2006 is considerably lower than the number of returns received by Submission Processing, by slightly more than 140,000. Not all Form 2553 receipts are posted to the master file because of errors and unnecessary filings.
- “Form 1066” is the *U.S. Real Estate Mortgage Investment Conduit (REMIC) Income Tax Return*.
- “Estate, Total” includes Forms 706, 706-NA, 706-GS(D), and 706-GS(T).
- “Gift, Form 709” is the *U.S. Gift (and Generation-Skipping Transfer) Tax Return*.
- “Employment Tax, Total” includes paper and electronic Forms 940, 940-EZ, 940-PR, 941, 941-PR, 941-SS, 943, 943-PR, 943-SS, 944, 945, CT-1 and CT-2.
- “Form 1042” is the *Annual Withholding Tax Return for U.S. Source Income of Foreign Persons*. It is sometimes considered an employment tax return, but listed separately here. This form is assigned to the International area.
- “Exempt Organizations, Total” includes Forms 990 (paper and electronic), 990-EZ (paper and electronic), 990-N (only available electronically starting from CY 2008), 990-PF (paper and electronic), 990-T, 4720, and 5227.

- “Government Entities/Bonds, Total” includes Forms 8038, 8038-G, 8038-GC, 8038-T and 8328.
- “Political Organizations, Total” includes both paper and electronic Forms 1120-POL, 8871 and 8872.
- “Excise, Total” includes Forms 11-C, 720 (paper and electronic), 730, and 2290 (paper and electronic).
- “Form 5330” is the *Return of Excise Taxes Related to Employee Benefit Plans*.
- “Form 8752” is the *Required Payment or Refund Under Section 7519*.
- “Supplemental Documents” consist mainly of applications for extensions of time to file and amended tax returns, which include Forms 1040-X, 4868 (paper and electronic), 1120-X, 5558, 7004 (paper and electronic), and 8868 (paper and electronic).

Table 13

Return volumes presented in Table 13 reflect additional detail for certain form types by “examination class.” The examination classes are defined by IRS staff and are used for internal compliance planning purposes. While most of the examination class categories are self explanatory, a few require a bit more clarification as follows.

Examination class definitions for Individual Forms “Forms 1040, 1040-A and 1040-EZ”:

- Earned Income Tax Credit (EITC) returns with TPI (Total Positive Income and reflects total income excluding losses) less than \$200,000 and Schedule C/F with TGR (Total Gross Receipts) less than \$25,000 and \$25,000 or over.
- Non-business returns (with no EITC) with 1) TPI less than \$200,000 and no Schedule C, E, F, or Form 2106 and 2) TPI less than \$200,000 with only Schedule E or Form 2106.
- All non-farm business returns (no EITC) and TPI less than \$200,000 and Schedule C/F present with 1) TGR less than \$25,000, 2) TGR at \$25,000 or below \$100,000, 3) TGR at \$100,000 or below \$200,000, and 4) TGR \$200,000 or more.
- Farm business returns with no EITC, Schedule F present with TGR greater than Schedule C TGR (if any), and TPI less than \$200,000
- High income taxpayers is a new category broken out by 1) no Schedule C or F, but TPI \$200,000 or more and under \$1,000,000, 2) Schedule C or F returns present with TPI \$200,000 or more and under \$1,000,000, 3) TPI \$1,000,000 or more.

As noted in the Overview, five new examination classes were added to the breakouts for “Corporation Forms 1120, 1120-A, and 1120-Other, Total” in this update. The category 1120-Other includes Forms 1120-FSC, 1120-L, 1120-ND, 1120-PC, 1120-REIT, 1120-RIC, and 1120-SF. The five new classes are in the “Returns with Assets” grouping:

- \$250 Million or more and under \$500 Million
- \$500 Million or more and under \$1 Billion
- \$1 Billion or more and under \$5 Billion
- \$5 Billion or more and under \$20 Billion
- \$20 Billion or more

Since historical data from the master file were not available for these new examination classes, data were obtained from the operating divisions to report the actuals and develop forecasts.
