

INFRASTRUCTURE REDUCTION

Y-12's FOOTPRINT REDUCTION HAS BEGUN

Building 9703-11

- 1954 wood-frame structure previously used as security portal
- State of deterioration caused continued safety concerns
- General Gordon began demolition by operating tractor at ceremonial dedication

Building 9723-16

- 1944 structure originally built as a changehouse and later used for offices
- Reduced footprint by 21,000 ft²
- Removed significant health and safety hazard and eliminated ongoing maintenance costs

Building 81-22

- 1940's wooden structure declared unsafe because of physical condition
- Reduced footprint by 14,578 ft²
- Eliminated required surveillance maintenance and utility costs
