

INFRASTRUCTURE REDUCTION

Y-12's FOOTPRINT REDUCTION CONTINUES FORWARD

Building 9949-1

- Footprint reduction begins on the east end of the Y-12 site.
- The latest building to be demolished as part of Y-12's Infrastructure Reduction Program was Building 9949-1, also known as "The Hamburger Stand."

- Situated so close to First Street, the vacant building obscured drivers' views of pedestrians who were approaching the crosswalk.
- SEC Inc., a BWXT Y-12 L.L.C. subcontractor, completed the demolition over a weekend, thereby eliminating any disruption to normal Y-12 activities.
