

USDA Career Intern Programs

The Department of Agriculture Career Intern Programs will prepare exceptional men and women who have diverse professional experiences, academic training, and competencies for careers in public service. Interns will participate in a 2-year program, that is designed to fine tune their skills and abilities.

USDA is a nationwide and world employer. It has employees located in 58 states and territories, and 57 foreign countries.

Professional Development:

- , Two years participation in a formal training program to provide the skills needed for careers in the sciences and in administration/professional areas
- , On-the-job training to learn to handle the everyday situations of a career at USDA

Rotational Training:

- , Rotational assignments to expose scientific interns to challenging assignments in regional offices, the Nation's Capital, or throughout the United States
- , Rotational assignments to expose Administrative/Professional Interns to challenging assignments in areas such as human resources, finance, procurement, budget, property management, and information technology

Purpose

The purpose of the USDA Career Intern Programs is to:

- , Provide USDA with a cadre of skilled individuals to fill more

responsible positions in the sciences and in administration/professional areas at the end of the internships

General Eligibility

- , U.S. citizenship
- , Bachelor's or Graduate Degree with an overall college GPA of 3.0 or better if applying based on education
- , Diverse professional experiences, training, and competencies
- , Demonstrate leadership potential, and community service

Career Programs:

- , Sciences Intern Program will include two levels: professional and technician
- , Administrative/Professional Intern Program will include Administrative/Professional careers
