(Rev. November 2007)

For use with Forms 720-TO and 720-CS (Rev. January 2004)

Terminal Operator Report and Carrier Summary Report

Section references are to the Internal Revenue Code unless otherwise noted.

Reminders

Electronic filing. Electronic filing is required for each return reporting 25 or more transactions a month. However, all taxpayers are encouraged to file electronically. File Form 720-TO and 720-CS electronically through the Excise Summary Terminal Activity Reporting System (ExSTARS). For more information on e-file and ExSTARS, visit the IRS website at www.irs.gov/excise. Also, see Pub. 3536, Motor Fuel Excise Tax EDI Guide.

General Instructions

These instructions are for paper filers. See Pub. 3536, Motor Fuel Excise Tax EDI Guide, for the electronic reporting instructions.

Purpose of Forms

Form 720-TO is an information return that is used by terminal operators to report their monthly receipts and disbursements of liquid products.

Reporting is required for inactive terminals.

Form 720-CS is an information return that is used by bulk carriers to report their monthly receipts and disbursements of liquid products.

A liquid product is any liquid that is transported into storage at a terminal or delivered out of a terminal. See the product code table on page 6.

When To File

Forms 720-TO and 720-CS must be filed monthly. The report is due the last day of the month following the month in which the transaction occurs.

If any due date for filing a return falls on a Saturday, Sunday, or legal holiday, you may file the return on the next business day.

Send your information return to the IRS using the U.S. Postal Service or a designated private delivery service to meet the "timely mailing as timely filing" rule. See *Private Delivery Services* below.

Where To File

Mail Forms 720-TO and 720-CS to the Department of the Treasury, Internal Revenue Service, Stop 5701G, Cincinnati, OH 45999. Send the forms to the IRS in a flat mailing (not folded). Do not staple, tear, or tape any of these forms. If you are sending a large number of forms, you may send them in conveniently sized packages. On each package, write your name and EIN and number the packages consecutively. Postal regulations require forms and packages to be sent by First-Class Mail.

How To Complete Forms 720-TO and 720-CS

Below are suggestions that will allow the IRS to process the submitted forms in the most economical manner:

1. If you need additional forms or schedules, you may use photocopies.
2. Although handwritten forms are acceptable, the IRS prefers that you type or machine print data entries using 10 pitch (pica) or 12 pitch (elite) black type. Use block print, not script characters. Insert data in the middle of the blocks not touching other printing and guidelines, and take other measures to guarantee a dark black, clear, sharp image.
3. Do not enter 0 (zero) or "None" in data entry boxes when no entry is required. Leave the boxes blank unless the instructions specifically require that you enter a 0 (zero).

Substitute Forms 720-TO and 720-CS

If you want to prepare and use a substitute Form 720-TO or 720-CS, see Pub. 1167, General Rules and Specifications for Substitute Forms and Schedules. If your substitute Form 720-TO or 720-CS is approved, the form approval number must be printed in the lower left margin of each substitute form you file with the IRS.

Extension of Time To File

You may request an extension of up to 30 days to file a return. Explain the cause of the delay fully and send your request to the Department of the Treasury, Internal Revenue Service, Stop 5701G, Cincinnati, OH 45999.

Corrected Returns

If you filed a return with the IRS and later discover you made an error, you must correct it as soon as possible. If you filed your return electronically, see Pub. 3536 for instructions.

When making a correction to a paper filed return, you must send in the first page of Form 720-TO or 720-CS and the schedule(s) that needs to be corrected with the "Void" box checked. Identify the transaction you are correcting, either by highlighting or attaching an explanation. Then, complete another first page of Form 720-TO or 720-CS along with the corrected schedule(s) with the "Corrected" box checked. On the corrected schedule(s), only enter the information for the transaction you are correcting.

Recordkeeping

Keep copies of information returns you have filed with the IRS or the data to reconstruct for at least 3 years from the date of the return. Your records must be available at all times for inspection by the IRS.

Penalty

Failure to file correct information returns by the due date. If you fail to file a correct information return by the due date and you cannot show reasonable cause, you may be subject to a penalty. The penalty applies if you fail to file timely, you fail to include all information required to be shown on a return, or you include incorrect information on a return. The penalty also

applies if you report an incorrect employer identification number (EIN) or fail to report an EIN where required.

Private Delivery Services

You can use certain private delivery services designated by the IRS to meet the “timely mailing as timely filing” rule for information returns. These private delivery services include only the following:

- DHL Express (DHL): DHL Same Day Service; DHL Next Day 10:30 am; DHL Next Day 12:00 pm; DHL Next Day 3:00 pm; and DHL 2nd Day Service.

Definitions

Terminal. A taxable fuel storage and distribution facility that is supplied by pipeline or vessel and from which liquid products, such as taxable fuel, may be removed at a rack. However, the term does not include any facility at which gasoline blendstocks are used in the manufacture of products other than finished gasoline and from which no gasoline is removed. Also, the term does not include any facility where finished gasoline, undyed diesel fuel, or undyed kerosene is stored if the facility is operated by a taxable fuel registrant and all such taxable fuel stored at the facility has been previously taxed under section 4081 upon removal from a refinery or terminal.

Approved terminal. A terminal that is operated by a taxable fuel registrant that is a terminal operator.

Position holder. For IRS Excise information reporting only, with respect to a liquid product in a terminal, the person that holds the inventory position in the liquid product as reflected on the records of the terminal operator. A person holds the inventory position in a liquid product when that person has a contractual agreement with the terminal operator for the use of storage facilities and terminaling services at a terminal with respect to the liquid product. The term also includes a terminal operator that owns a liquid product in its terminal.

Net gallons. Liquid product measured in U.S. gallons corrected to a temperature of 60° Fahrenheit or 15° Celsius and to a pressure of 14.7 pounds per square inch (psi).

Gross gallons. The total product measured in U.S. gallons without temperature or barometric adjustments.

Consignor. The person that hires the carrier to transport liquid product.

Transport carriers (bulk). Includes pipelines, barges, or vessels delivering or removing liquid product at approved terminals.

Transport carriers (non-bulk). Includes trucks or railcars delivering or removing liquid product at approved terminals and removals from terminals (other than by truck or rail) for sale or use.

Mode of Transportation/Book Adjustment Codes. The table below lists the mode of transportation codes. See book adjustments (Code BA) below for use of code BA instead of a transportation code.

Table 1. Mode of Transportation Codes

Non-bulk	Bulk
J Truck	B Barge
R Rail	PL Pipeline
RT Removal from terminal (other than by truck or rail) for sale or consumption. See <i>RT-Removal from terminal</i> below.	S Ship (great lake or ocean)

BA-Book adjustments are product reclassifications or conversions of products at the terminal that result in a product code change. Examples include conversion of diesel fuel #2 low sulfur undyed to diesel fuel low sulfur dyed and reclassification of jet fuel to kerosene high sulfur dyed, or diesel fuel high sulfur #1 undyed. Book adjustments itemize changes, in volume, of at least one liquid product and another liquid product, with no physical movement of the product. Book adjustments must be reported in summary. For book adjustments, summary reporting means the combining of all book adjustment transactions by product code for the reporting period.

- **Schedule A.** Report the book adjustments for a product code along with the other transactions for the product code.
- **Schedule B.** Do not report book adjustments on any position holder's schedule. Instead, use a separate Schedule B with "book adjustment" as the position holder.

CE-Summary code is used when reporting product codes 092 and 122 in summary. See *Optional Summary Reporting Instructions for Product Codes 092 and 122, and Disbursements Using Mode of Transportation Code "RT"* on page 4.

RT-Removal from terminal. Monthly disbursement transactions for any product code using "RT" may be reported using the *Optional Summary Reporting Instructions for Product Codes 092 and 122 (Schedule B), and Disbursements Using Mode of Transportation Code "RT"* on page 4, or may be reported in detail.

Terminal Operator Report, Form 720-TO

Purpose of Form

Use Form 720-TO to report receipts and disbursements of all liquid products to and from all approved terminals.

A separate Schedule B must be prepared for each position holder and for each related product code that is destined for more than one state or has more than one mode of transportation.

Terminal control number (TCN). Enter the TCN assigned to the terminal's physical location by the IRS.

Part III. Transactions for the Month

Part III is for the terminal operator to provide a monthly summary of the terminal receipts and disbursements by product code.

Line 1. Enter the physical inventory of net gallons by product code at the beginning of the reporting period. This should be the same number as reported for actual ending inventory the previous month.

Line 2. If you have more than one Schedule A, Terminal Operator Receipts, for a product code, combine the totals from each column (f) for the product code and enter the total on line 2.

Line 4. If you have more than one Schedule B, Terminal Operator Disbursements by Position Holder, for a product code, combine the totals from each column (e) for the product code and enter the total on line 4.

Line 7. Enter the actual physical ending inventory at the terminal.

Transaction Reporting Instructions for All Product Codes

Schedule A. Terminal Operator Receipts

Use this schedule to report each receipt of product (bulk and non-bulk) by the terminal operator. A separate Schedule A must be used for each product code.

Line 1

Enter the product code from Table 2 on page 6. Product code 122 (blending components) includes gasoline blendstocks as defined in Regulations section 48.4081-1(c)(3)(i) but not listed in the product code table.

Schedule B. Terminal Operator Disbursements by Position Holder

Use this schedule to report each disbursement of product (bulk and non-bulk) by the terminal operator by position holder. A separate Schedule B for each position holder, separating bulk from non-bulk, must be used for each product code that is destined for more than one state or has more than one mode of transportation.

Note. Bulk and non-bulk disbursements of product code 092 or 122 can be reported in summary instead of reporting them as separate transactions. If you wish to summarize these transactions, use the optional reporting instructions for Schedule B below instead of these instructions.

Position holder (PH) name. Enter the name of the entity holding the inventory position in the terminal.

Line 1

Enter the product code from Table 2 on page 6.

Line 2

Enter the destination state code from Table 3 on page 7. The destination state code is required for non-bulk (truck or rail car) disbursements only. If a fuel transport truck is receiving fuel destined for different states, the terminal operator will issue a bill of lading, manifest, or other shipping document for each state of destination. You are required to report each separate shipping document as a separate transaction.

Line 3

Enter the code from Table 1 on page 3.

Example. ABC Terminal is preparing Schedule B for disbursements made by position holder XYZ. XYZ disburses gasoline (PC 065), diesel fuel #2 low sulfur undyed (PC 167), and jet fuel (PC 130) during the month destined for two states. ABC must prepare six Schedules B to report XYZ's transactions (three product codes x two destination states).

Line 4

Column (a). Enter the name of the carrier that transports the product out of the terminal.

Column (b). Enter the carrier's EIN. If the carrier is a foreign flag vessel and the EIN is unknown, enter 88-8888888. If the carrier is a military vehicle and you cannot obtain proper EIN, enter 77-7777777.

This could be a bill of lading, manifest, inspection report, or other shipping document. Both the carrier and terminal operator must report the same document number.

Column (e). Enter the actual net gallons disbursed from the terminal.

Column (f). Enter the gross gallons disbursed from the terminal as shown on the document listed in column (d). No entry is required for product codes 092 and 122.
