

## CoCoRaHS

### Community Collaborative Rain, Hail and Snow Network

Because....

*"Rain doesn't fall the same on all"*

Bill Peterson and Matheau Richaud

CoCoRaHS is a non-profit organization of volunteer backyard observers whose purpose is to help 'fill in the gaps' where measurable precipitation normally isn't recorded. Folks just like you are relied upon to accurately measure and report your findings on a simple to use form via the internet to the CoCoRaHS web-site. YOUR local National Weather Service will then use this information in its forecasts and post storm reporting.

CoCoRaHS is expected to be starting up in California in the near future, presumably October of this year. More information about the program can be found by visiting the CoCoRaHS web-site at [www.cocorahs.org](http://www.cocorahs.org) or by contacting Bill Peterson at [william.peterson@noaa.gov](mailto:william.peterson@noaa.gov), and Matheau Richaud at [Mathieu@csufresno.edu](mailto:Mathieu@csufresno.edu)
