Comment on: Smart metering  
Comment on: Interconnection of consumer generation  
Comments: Please approve measures to allow Net Metering, Smart Metering, and Interconnection of consumer generation.

It really pains me to read websites of progressive states (ie California) that provide this service to their residents, whereas TVA residents have absolutely NO incentive to invest in alternative fuels.

I myself have been waiting for the day when I can afford a solar power system in which excess energy would be returned to the grid for credit.

Please see the Austin, TX model as I believe it would kick start the solar power program in TVA area.
