## **Department of Homeland Security**

### **Performance Budget Overview**

Fiscal Year 2006
Congressional Budget Justification

### **Table of Contents**

Introd	<b>luction</b> - DHS Planning, Programming, Budgeting and Execution
1.	AWARENESS - Identify and understand threats, assess vulnerabilities, determine potential impacts and disseminate timely information to our homeland security partners and the American public
2.	PREVENTION - Detect, deter and mitigate threats to our homeland
3.	PROTECTION - Safeguard our people and their freedoms, critical infrastructure, property and the economy of our nation from acts of terrorism, natural disasters and other emergencies
4.	REPONSE - Lead, manage and coordinate the national response to acts of terrorism, natural disasters, and other emergencies
5.	RECOVERY - Lead national, state, local, and private sector efforts to restore services and rebuild communities after acts of terrorism, natural disaster, or other emergencies
6.	SERVICE - Serve the public effectively by facilitating lawful trade, travel and immigration
7.	ORGANIZATIONAL EXCELLENCE - Value our most important resource, our people. Create a culture that promotes a common identity, innovation, mutual respect, accountability and teamwork to achieve efficiencies, effectiveness, and operational synergies

NOTE: Supplemental information available at www.dhs.gov, under DHS Organization, then Budget: A. Verification and Validation of Measured Values

- B. Program Analysis Findings and Addressing Shortcomings

#### Introduction

#### DHS Planning, Programming, Budgeting and Execution System (PPBE)

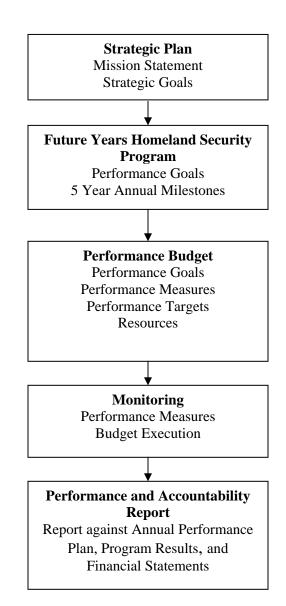

The Department of Homeland Security's (DHS) PPBE system is a resource allocation process designed to align resources to programs and activities that support the Department's strategic objectives and priorities. The DHS PPBE is a cyclic process containing distinct but interrelated phases: planning, programming, and budgeting constitute the plan preparation activities; then, implementation, accountability, and reporting constitutes the plan execution activities that monitor results and loop back to inform the planning phase of the next cycle.

In addition to establishing the framework and process for decision making on future programs, the PPBE process permits previous decisions to be examined and analyzed from the viewpoint of the current environment (threat, political, economic, technological, and resources) and for the time period being addressed. The decisions shall be based on and consistent with the set of goals and objectives defined in the DHS Strategic Plan.

The ultimate objective of the PPBE is to provide the Directorates/ Organizational Elements with the best operational and support resources (human, capital, and information) that align to and support the DHS mission within fiscal constraints. Throughout the PPBE, the Secretary of Homeland Security provides centralized policy direction while placing program execution authority and responsibilities with the Directorates/Organizational Elements. The Directorates/Organizational Elements provide advice and information as requested by the Secretary and his/her staff so that execution and accountability may be properly assessed.

The end purpose of the PPBE is to produce a plan, a program, and a performance budget for DHS that will allow the Department to fulfill its mission as effectively and efficiently as possible. The DHS budget is forwarded to the President for approval. The President's budget is then submitted to Congress for authorization and appropriation.

The loop is closed by regular monitoring of progress as measured by performance measures, execution of the budget, and at fiscal year end, accountability against the performance budget goals and targets. Year end results are reported to Congress and the public in the Performance and Accountability Report.

#### DEPARTMENT OF HOMELAND SECURITY

#### Overview

This is the Department of Homeland Security's Performance Budget. It demonstrates the performance levels associated with the FY 2006 President's Budget and implementation of the first year of the Department's Future Years Homeland Security Program, FY 2006 to FY 2010.

This performance budget is rendered in compliance with the Government Performance and Results Act of 1993 ("GPRA" or the "Results Act") requirements for an Annual Performance Plan following Office of Management and Budget (OMB) guidance. The performance goals and measures contained in this Overview are those for subsequent reporting in the Department's Annual Performance and Accountability Report for FY 2005.

The overview begins by stating what DHS intends to accomplish to fulfill its mission and achieve its goals for the level of funding requested, thus accomplishing its vision:

Preserving our freedoms, protecting America... we secure our homeland.

The mission of the Department of Homeland Security is:

We will lead the unified national effort to secure America. We will prevent and deter terrorist attacks and protect against and respond to threats and hazards to the nation. We will ensure safe and secure borders, welcome lawful immigrants and visitors, and promote the free-flow of commerce.

# What DHS intends to accomplish in FY 2006 by strategic goal, and program, including:

- Target Performance Goals and Measures to achieve,
- Budgets by strategic goal and program,
- Means and strategies to achieve goals,
- Past performance accomplishments in meeting targets, and
- Program analysis findings.

The Department of Homeland Security will make significant strides to achieve a team-based, collaborative and integrated approach that reaches out and coordinates with other federal entities, State and local governments, the private sector, academic institutions, our international friends and allies, and citizens of our nation to:

- help prevent terrorist attacks,
- reduce America's vulnerability to terrorism.
- minimize the damage and recover from attacks that do occur, and
- perform efficiently and effectively our traditional, non-security roles.

Trained and educated people are our most valuable resource, and we will provide them the very best technology that our nation can develop, produce, and rapidly deploy. Our decisions, programs, and actions will stem from a comprehensive and risk-based understanding of threats, vulnerabilities, and consequences. An overarching requirement will be protecting the rights and privacy of our citizens and the prudent and effective use of National resources.

The following tables show the contribution of DHS programs to achieve the DHS strategic goals as demonstrated by performance goals and metrics, along with the resources including organizational entity allocated overhead, to achieve them. The tables for each strategic goal are introduced by

a high level summary of the means and strategies to achieve the performance goals, and other key information.

This document has purposely been kept brief, in the belief that too much information can overwhelm rather than inform. For further details, additional information is available from two primary sources:

- The body of the Congressional Justification, which includes detailed information by DHS's organizational elements,
- Supplemental information to this Overview, available at <u>www.dhs.gov</u>

STRATEGIC GOAL - 1. AWARENESS - Identify and understand threats, assess vulnerabilities, determine potential impacts and disseminate timely information to our homeland security partners and the American public.

#### Objectives, Means and Strategies

The Information Analysis and Infrastructure Protection Directorate, and the Science and Technology Directorate are essential DHS components with programs having primary emphasis on supporting the DHS Awareness goal. The goal is also supported by the Counter Terrorism Fund and Information Technology programs of the Management Directorate. All these entities and programs dedicate their resources, working collaboratively with other DHS components to provide the means and strategies to achieve the DHS strategic objectives of:

- 1.1 Gather and fuse all terrorism related intelligence; analyze, and coordinate access to information related to potential terrorist or other threats.
- 1.2 Identify and assess the vulnerability of critical infrastructure and key assets.
- 1.3 Develop timely, actionable and valuable information based on intelligence analysis and vulnerability assessments.
- 1.4 Ensure quick and accurate dissemination of relevant intelligence information to homeland security partners, including the public.

Although the programs identified below play a primary role in supporting this goal, other programs play supporting roles. Organizations also cooperate in initiatives that involve combining efforts, in addition to carrying out specific organization-specific programs. One example is the Science and Technology Cyber Security Center initiative which mitigates vulnerabilities so that regardless of the threat and/or other factors, network systems supporting the U.S. critical infrastructure remain secure. The Transportation Security Administration program, "Transportation Security Enterprise" manages the security risk to America's transportation system and its users. In addition, the U.S. Coast Guard Ports Waterways and Coastal Security (PWCS) program protects the U.S. Maritime Domain and the Marine Transportation System by denying their use and exploitation by terrorists. The following tables capture the performance goals, main performance measures, and resources whose primary focus is Awareness, but also list other strategic plan objectives supported. Objectives are accomplished through the crosscutting efforts and cooperation of Federal agencies such as the Departments of Defense, Health and Human Services, Justice, Treasury, Transportation, Energy, and Agriculture, as well as state and local governments, private organizations and selected foreign governments.

**Performance Goal:** Function as the lead agency in the development and operation of the National Biosurveillance Integration System (NBIS) to detect biological and chemical attacks and coordinate the real-time integration of biosurveillance data with threat information and recommended responses.

## STRATEGIC GOAL - 2. PREVENTION - Detect, deter and mitigate threats to our homeland.

#### Objectives, Means and Strategies

This goal is at the core of why the Department of Homeland Security was created. The operational processes, skills, technology, and resources of U. S. Customs and Border Protection, Immigration and Customs Enforcement, Transportation Security Administration, Coast Guard, Science and Technology, Information Analysis and Infrastructure Protection, and the Federal Law Enforcement Training Center provide the primary means and strategies to achieve this goal. Other programs also contribute to this goal but their primary focus is on other goals. Objectives under the Prevention goal are:

- 2.1 Secure our borders against terrorists, means of terrorism, illegal drugs and other illegal activity.
- 2.2 Enforce trade and immigration laws.
- 2.3 Provide operational end users with the technology and capabilities to detect and prevent terrorist attacks, means of terrorism and other illegal activities.
- 2.4 Ensure national and international policy, law enforcement and other actions to prepare for and prevent terrorism are coordinated.
- 2.5 Strengthen the security of the nation's transportation systems.
- 2.6 Ensure the security and integrity of the immigration system.

Both Customs and Border Protection and the United States Coast Guard strive to prevent terrorists and their weapons from entering the United States, either by air, land or water. Specific programs supporting the Prevention goal include screening the international supply chain, screening U.S. bound cargo in foreign ports, screening containers using non-intrusive inspection technology, and providing decision makers with threat and enforcement information. DHS entities also work together on cross cutting programs such as Net Assessments whereby Science and Technology and Information Analysis and Infrastructure Protection perform research and data integration to perform assessment of terrorist capabilities; terrorist Weapons of Mass Destruction (WMD) characterizations; and critical shortfalls in the U.S. ability to detect, deter, prevent, prepare for, and recover from a spectrum of terrorist attacks. DHS does not act alone to achieve this goal and its objectives. It aids and partners with other Federal agencies, such as the Departments of Justice, State, Transportation and Defense, and state and local governments and the private sector to achieve the objectives.

**Performance Goal:** Improve the targeting, screening, and apprehension of high-risk international cargo and travelers to prevent terrorist attacks, while providing processes to facilitate the flow of safe and legitimate trade and travel.

# STRATEGIC GOAL - 3. PROTECTION - Safeguard our people and their freedoms, critical infrastructure, property and the economy of our nation from acts of terrorism, natural disasters, and other emergencies.

#### **Objectives, Means and Strategies**

DHS's Emergency Preparedness and Response, Federal Law Enforcement Training Center, Information Analysis and Infrastructure Protection, Office of State and Local Government Coordination and Preparedness, Coast Guard, Immigration and Customs Enforcement, Science and Technology, and the Secret Service have programs whose primary goal supported is Protection. Together they achieve the following DHS objectives:

- 3.1 Protect the public from acts of terrorism and other illegal activities.
- 3.2 Reduce infrastructure vulnerability from acts of terrorism.
- 3.3 Protect against financial and electronic crimes, counterfeit currency, illegal bulk currency movement and identity theft.
- 3.4 Secure the physical safety of the President, Vice President, visiting world leaders, and other protectees.
- 3.5 Ensure the continuity of government operations and essential functions in the event of crisis or disaster.
- 3.6 Protect the marine environment and living marine resources.
- 3.7 Strengthen nationwide preparedness and mitigation against acts of terrorism, natural disasters, or other emergencies.

In achieving the Protection goal, the programs receive support from other DHS entities, and partner with Federal, state, and local governments and private sector entities. Private sector entities include groups involved in public policy and administration, building sciences, planning risk management and property insurance, state and local fire service organizations, and owners and operators of critical infrastructures.

**Performance Goal:** The Federal Emergency Management Agency (FEMA) will assess targeted percentages of Federal agencies and State governments for compliance with implementation of the National Incident Management System; increase the proportion of respondents reporting they are better prepared to deal with disasters and emergencies as a result of the FEMA training they received; and reduce the rate of loss of life from fire-related events.

# STRATEGIC GOAL - 4. RESPONSE - Lead, manage and coordinate the national response to acts of terrorism, natural disasters, and other emergencies.

#### Objectives, Means and Strategies

The operational processes and resources of Emergency Preparedness and Response, and Coast Guard support the Response goal and its objectives. Specific programs include the coordination of a national response to natural and manmade major disasters and emergencies (including acts of terrorism), reduction of vulnerability against biological and chemical attacks, search and rescue missions, and protection of the marine environment. These programs work to achieve the DHS strategic objectives of:

- 4.1 Reduce the loss of life and property by strengthening nationwide response readiness.
- 4.2 Provide scalable and robust all-hazard response capability.
- 4.3 Provide search and rescue services to people and property in distress.

Their partners in achieving the Response objectives include other DHS programs, first-responders, emergency managers and elected and/or public officials, maritime stakeholders, the National Association for Search and Rescue (NASAR) and other volunteer organizations.

**Performance Goal:** The Federal Emergency Management Agency (FEMA) will evaluate all emergency teams and operations through at least one readiness evaluation or exercise; raise the average percentage of evaluated teams and operations achieving fully operational or better status, and raise the evaluated team's one operational level annually; and reduce the average maximum on scene response time.

# STRATEGIC GOAL - 5. RECOVERY - Lead national, state, local and private sector efforts to restore services and rebuild communities after acts of terrorism, natural disaster, or other emergencies.

#### Objectives, Means and Strategies

Emergency Preparedness and Response's program of Recovery is the leading program to achieve the Recovery goal and its objectives of:

- 5.1 Strengthen nationwide recovery plans and capabilities.
- 5.2 Provide scalable and robust all-hazard recovery assistance.

Although leading, the program is supported by other DHS programs shown under their primary goal supported, and partners such as State, Tribal and local governments; the Center for Mental Health Services; US Army Corps of Engineers; Department of Labor; Small Business Administration; and other Federal Agencies.

**Performance Goal:** Increase the annual customer satisfaction level among recipients of Individual Disaster Recovery Assistance and Public Disaster Recovery Assistance; reduce the program delivery cost for Individual Recovery Assistance and Public Recovery Assistance; reduce Individual Recovery Assistance processing cycle time; complete catastrophic disaster recovery planning.

## STRATEGIC GOAL - 6. SERVICE - Serve the public effectively by facilitating lawful trade, travel and immigration.

#### Objectives, Means and Strategies

U.S. Citizenship and Immigration Services will continue the tradition of welcoming immigrants into the country by administering services such as immigrant and nonimmigrant sponsorship; adjustment of status; work authorization and other permits; naturalization of qualified applicants for U.S. citizenship; and asylum or refugee processing. It coordinates the activities as needed with the Department of State and foreign governments. U. S. Coast Guard activities that support this goal include: ice-breaking in the Great Lakes and Northeast to promote year-round maritime commerce, and in the Polar Region in support of scientific and national security activity. Specific U. S. Customs and Border Protection activities that support this goal include many efforts to facilitate the efficient movement of legitimate cargo and people at ports of entry. The strategic objectives under the Service goal are:

- 6.1 Increase understanding of naturalization, and its privileges and responsibilities.
- 6.2 Provide efficient and responsive immigration services that respect the dignity and value of individuals.
- 6.3 Support the United States humanitarian commitment with flexible and sound immigration and refugee programs.
- 6.4 Facilitate the efficient movement of legitimate cargo and people.

**Performance Goal:** Maintain operational channels for navigation, limiting channel closures to two days (during average winters) and eight days (during severe winters).

STRATEGIC GOAL - 7. ORGANIZATIONAL EXCELLENCE - Value our most important resource, our people. Create a culture that promotes a common identity, innovation, mutual respect, accountability, and teamwork to achieve efficiencies, effectiveness, and operational synergies.

#### Objectives, Means and Strategies

The Under Secretary for Management is directly responsible to the Secretary for budget, appropriations, expenditure of funds, accounting and finance; procurement; human resources and personnel; information technology systems; facilities, property, equipment, and other material resources; and compliance with the Government Performance and Results Act, including the identification and tracking of performance measurements relating to the responsibilities of the Department. A vital role is also played by the Office of the Inspector General (OIG) which serves as an independent and objective inspection, audit, and investigative body. The OIG promotes effectiveness, efficiency, and economy in the Department of Homeland Security's programs and operations. It is responsible for preventing and detecting fraud, abuse, mismanagement, and waste in such programs and operations. Success in this goal is measured by the performance goals in the table that follows. Under the framework of the President's Management Agenda, all entities of DHS work to accomplish the strategic objectives of this goal;

- 7.1 Protect confidentiality and data integrity to ensure privacy and security.
- 7.2 Integrate legacy services within the Department improving efficiency and effectiveness.
- 7.3 Ensure effective recruitment, development, compensation, succession management and leadership of a diverse workforce to provide optimal service at a responsible cost.
- 7.4 Improve the efficiency and effectiveness of the Department, ensuring taxpayers get value for their tax dollars.
- 7.5 Lead and promote E-Government modernization and interoperability initiatives.
- 7.6 Fully integrate the strategic planning, budgeting and evaluation processes to maximize performance.
- 7.7 Provide excellent customer service to support the mission of the Department.

**Performance Goal:** Add value to the DHS programs and operations; ensure integrity of the DHS programs and operations; and enable the OIG to deliver quality products and services.
