

Structurally Deficient Bridges on the National Highway System Maryland

Consult your state DOT for the most up-to-date status of bridges.

Note: The bridges displayed on this map represent the results of a combined BTS/FHWA effort to geocode bridges from the FHWA's National Bridge Inventory (NBI). With the exception of Kentucky and Pennsylvania, whose most current data is 2006, all data is from the 2007 NBI. Of the 47 structurally deficient NHS bridges in Maryland, 4 could not be geolocated because of insufficient data. Structurally deficient bridges are not necessarily unsafe; all public road bridges receive regular safety inspections. The bridges listed were categorized as structurally deficient at the time the maps were developed.

Bridge Label	Structure ID	Bridge Description	Location Description
1	100000010103010	IS 68	0.54 MILE EAST OF US 220
2	100000210106014	IS 70 WB	1.34 MILES WEST OF MD 63
3	100000210112013	IS 70 EB	0.33 MILE EAST OF IS 81
