## Structurally Deficient Bridges on the National Highway System Missouri - Congressional District 06

Note: The bridges displayed on this map represent the results of a combined BTS/FHNA effort to geocode bridges from the FHNA's National Bridge Inventory $(\mathbb{N B I} 1$. With the exception of Kentucky and Penrsyluania, whose most current data is 2006 , all data is from the 2007 NBL. Of the 125 structurally deficient NHS bridges in Missouri, 2 could not be geolocated because of insufficient data. Structurally deficient bridges are not necessarily uns afe;
