POSTAL RATE COMMISSION

[Docket No. MC99-3; Order No. 1237]

Mail Classification Case

AGENCY: Postal Rate Commission.

ACTION: Notice of initiation of new classification docket.

SUMMARY: This case addresses a rate anomaly facing certain nonprofit and

classroom Periodicals class mailers. The proposed changes allow eligible mailers the option of calculating and paying postage under an alternative rate schedule. The Service also proposes postage refunds under certain circumstances. These actions remedy unintended consequences of a recent rate case. They also eliminate the incentive to create artificial distinctions to qualify for lower rates.

DATES: See Supplementary Information section for dates.

ADDRESSES: Send communications regarding this notice to the attention of Margaret P. Crenshaw, Secretary of the Commission, 1333 H Street NW., Suite 300, Washington, DC 20268-0001.

FOR FURTHER INFORMATION CONTACT:
Stephen L. Sharfman, General Counsel,
1333 H Street NW., Washington, DC
20268-0001, 202-789-6820.

SUPPLEMENTARY INFORMATION: On April 9, 1999, the Postal Service filed a request with the Commission for a recommended decision on proposed changes in the domestic mail classification schedule (DMCS). The request was filed pursuant to section 3623 of the Postal Reorganization Act, 39 U.S.C. 101 *et seq.* The request includes attachments and is supported by the testimony of one witness. It is on file in the Commission docket room and is available for inspection during the Commission's regular business hours.

The purpose of the Postal Service request is to provide a remedy for a rate anomaly affecting certain nonprofit and classroom Periodicals class mailers which inadvertently resulted from the last omnibus rate case (docket no. R97-1). For certain publications, the rates available in the nonprofit and classroom rate schedules (423.3 and 423.4, respectively) generate higher postage amounts than the regular rate schedule rates.

The Service proposes that until the Periodicals rates may be generally adjusted in the next omnibus rate case, a classification change be instituted that would allow nonprofit and classroom subclass mailings to use the regular rate schedule when such use would lower the publication's postage. Request of the United States Postal Service for a Recommended Decision on Periodicals Classification Change, April 9, 1999 ("Postal Service Request") at 1. (Even without the proposed classification change, preferred mailers affected by the rate anomaly qualify for the lower regular rates if they relinquish their preferred authorization.) The Service also proposes a new footnote to the regular rate schedule exempting nonprofit and classroom publications

with less than 10 percent advertising that use the regular rate schedule from paying the advertising pound rates. *Id.* at 1-2.

Potential Refunds

According to the Service, the requested classification changes are not intended to reopen for consideration those rates and fees established in docket no. R97-1, but to provide a means of access to the established regular rates for qualifying nonprofit and classroom publications using their current permits. To this end, subject to the Commission's recommendation and the Board of Governor's approval, the Service has initiated a refund procedure to address the rate anomaly as of April 9, 1999. *Id.* at 2. Under the refund procedure, nonprofit and classroom mailers can submit dual mailing statements and apply for a subsequent refund for the difference between the preferred postage paid and the otherwise applicable regular rate on mailings made from April 9, 1999 forward. The refund procedure is to be comparable to the established "application pending" procedure applicable to mailers applying for a preferred rate authorization, as described in domestic mail manual (DMM) §§ E270.8.0-9.0. *Ibid.*

Contents of the Filing

The Postal Service request is supported by the testimony of witness Taufique (USPS-T-1), who explains the rate anomaly and describes the Service's classification proposal. The testimony maintains that the request has minimal revenue and cost impact and conforms with the applicable standards of the Postal Reorganization Act (specifically, 39 U.S.C. 3623(c) classification criteria).

Proposed DMCS Provisions

The Postal Service's request proposes changes in section 441 (Periodicals) of the current DMCS to provide a remedy for the rate anomaly affecting certain nonprofit and classroom Periodicals class mailers. The proposed DMCS changes are provided as attachment A to the Service request, and likewise accompany this notice and order as attachment A. (Changes presented in italics.)

Proposed Rate Schedule

In attachment B to its request, the Service displays changes it proposes to DMCS rate schedule 421—Periodicals rate schedule 421—regular subclass). The Service's requested changes in rates accompany this notice and order as attachment B.
