Diagram 3. Concerns about Plant's HACCP System after a Positive for *E. coli* O157:H7

If inspection program personnel have concerns about plant's HACCP system, **they do not collect sample**, but notify front-line supervisor.

DO decides **not to bring in EIAO**.

Inspection program personnel collect follow-up sample. See Enforcement, Diagram 2.

DO decides **to bring in EIAO** to conduct comprehensive assessment of plant's food safety systems.

EIAO determines plant's corrective actions are inappropriate or ineffective.

EIAO recomments: NOIE Withholding, or Suspension EIAO determines plant's corrective actions are appropriate and effective. One verification sample is collected. See Enforcement, Diagram 2.

FSIS follows procedures for: NOIE Withholding, or Suspension DO decides to either (1) Defer a decision on suspension, or (2) Put suspension in abeyance

DO determines number of follow-up samples to be taken.
