SUPPLEMENTARY INFORMATION:

Background

On February 15, 2007, NMFS published an ANPR regarding potential amendments to the regulatory requirements for TEDs (72 FR 7382). The ANPR announced that NMFS is considering amendments to the regulatory requirements for TEDs. Specific changes NMFS is considering include increasing the size of the TED escape opening currently required in the summer flounder fishery; requiring the use of TEDs in the flynet, whelk, calico scallop, and Mid-Atlantic sea scallop trawl fisheries; and moving the current northern boundary of the Summer Flounder Fishery-Sea Turtle Protection Area off Cape Charles, Virginia, to a point farther north. Other potential measures are also being considered. The objective of the proposed measures would be to effectively protect all life stages and species of sea turtle in Atlantic and Gulf of Mexico trawl fisheries where they are vulnerable to incidental capture and mortality. NMFS is seeking public comment on these potential amendments to the TED regulations. NMFS is also soliciting public comment on the need for, and development and implementation of, other methods to reduce bycatch of sea turtles in any commercial or

recreational fishery in the Atlantic and Gulf of Mexico where sea turtle conservation measures do not currently exist. That **Federal Register** notice initiated a 30-day public comment period scheduled to end on March 19, 2007.

NMFS subsequently received requests from the public to extend the comment period. These requests stated that more time is necessary to more fully review and provide comments on issues mentioned in the ANPR. In this document NMFS is extending the public comment period for an additional 60 days, until May 18, 2007, to allow additional time for these requesters and other interested parties to provide comments.

Magnuson-Stevens Fishery Conservation and Management Act Provisions; Fisheries of the Northeastern United States; Atlantic Sea Scallop Fishery; Amendment 13 to the Atlantic Sea Scallop Fishery Management Plan

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability of a fishery management plan amendment; request for comments.

SUMMARY: NMFS announces that the New England Fishery Management Council (Council) has submitted Amendment 13 to the Atlantic Sea Scallop Fishery Management Plan (FMP) (Amendment 13), incorporating the public hearing document and the Initial Regulatory Flexibility Analysis (IRFA), for review by the Secretary of Commerce and is requesting comments from the public. The goal of Amendment 13 is to implement an observer service provider mechanism for the scallop fishery that would re-active the industry-funded observer
