Pamela

Dear US CODEX/ USDA

I am writing to vehemently protest the US Draft Positions for the Codex Committee on Nutrition and Foods for Special Dietary Uses. It is absurd to think that doctors and so called dieticians are in any way trained or equipped to dispense information concerning these supplements for they are trained, educated and indoctrinated as agents for the pharma-drugcartels... Sadly, this is true!.. Beware! Item 5.9 of agenda item number 6 of the Labeling Proposal must be deleted. We must be FREE to individually choose our cures. I suffered for 10+ years with severe ulcerative colitis and left the doctors, specialists and drugs in the dust...and cured myself fully. I have been exceedingly healthy and totally drug free for over 15 years and I did it at no cost to government ..and without drugs . I healed myself naturally because...by the grace of God I could freely choose my path of healing. I am passionate about this because I know the devastation of disease...my sister had her colon removed when she was in her early twenties and has worn a bag for over 30 years...a difficult path. Please keep our right to supplementation free of intervention... I beseech you. LET FREEDOMRING!!! Keep the doctors and drug cartels out of the picture! EACH CITIZEN IS THE GATEKEEPER. Sincerely, Pamela
