Dear Dr. Yetley,

The UDSA has ABSOLUTELY **NO** RIGHT to shut down our access to natural food supplements!

Natural food supplements and "home-grown remedies" for a multitude of diseases and ailments have been in existence and proven far more efficient in preventing and even curing illnesses than anything the Big Pharma **Pill-Pushers** have come up with. Natural remedies had long been used before recorded history, and yet Big Pharmaceutical companies act like YOU invented and have exclusive rights to any health remedy. I have read some of the "health warnings" for side effects on the medicine my parents take. These side effects are far more dangerous than the malady that you seek to "cure".

Additionally, some of the medicines that Big Pharma and the **USDA/FDA** have stated were "safe", have caused thousands of injuries and even deaths - not to mention the **mega-milliondollar** class-action lawsuits that attorneys have filed because of the dangerous side effects caused by Redux, Celebrex and countless other celebrity drugs you dupe people into getting their doctors to prescribe for them.

The Big Pharma companies are making Americans **DRUG ADDICTS** and **HYPOCHONDRIACS** by promoting various drugs on **TV** and telling Americans to get their doctor to prescribe these drugs for them. Big Pharma are **ROBBING** the Elderly Americans by pushing and overpricing your medications, when the Elderly would be better served and a good deal healthier by taking natural food supplements.

Big Pharma Companies are in direct violation to the **ANTI-MONOPOLY LAWS** of America. It is the Big Pharma Companies that are **POISONING AMERICANS**, and you seek to **ROB** us of natural foods that can heal us, and you also seek to **POISON** those in other countries through the European Unions' Parliament which has, in some places, already shut down their access to Cancer-fighting medicines.

To limit or control a countrys' access to medicines that are far more effective than the **POISONS** Big Pharma deals out, is to commit wide-spread **MURDER**. Big Pharmas' Executives are on even par with **MURDERING DICTATORS!**

THIS MURDER MUST STOP!!!!!!!!!!!!!!!!!!!!!!
