I request the FDA delete item 5.9 of agenda item No. 6 in the draft guidelines for vitamin and mineral supplements. Item 5.9 is in violation of the Dietary Supplement Health and Education Act of 1994 (DSHEA). US Citizens have the right to decide for themselves what nutrition supplements/products they wish to use. The wording of item 5.9 is regressive and misleading, and not in my or any other citizen's best interest.

Thank you for your attention to this matter
David Larsen
