Please delete item 5.9 of agenda item No. 6 in the draft guidelines for vitamin and mineral supplements. Every citizen is the real gatekeeper for truthful and non-misleading information about nutrition.

Let us not harmonize international food and supplement labeling to inadequate labeling. United States law provides the best availability of information. That should be our example and gift to the world. Item 5.9 of the labeling proposal is regressive and misleading.

Thank You,
John Close
