Ben Goodwin

Dear Ms. Crane,

I would like to make my position known about these supplement restrictions and that I heartily oppose any changes to the current law i.e. the Dietary Supplement Health and Education Act of 1994 (DSHEA). Please realize that each individual should have the freedom to buy and use the supplements that they have educated themselves about via the many & various sources of info. This could effectively kill the initiative of individuals to determine their own destiny and should therefore be dropped from this proposed draft.

Thanks and Sincerely, Ben Goodwin R. Ph. (Houston, Texas)
