**To:** Crane, Nancy T  
**Subject:** Agenda Item 6, Proposed Draft Guidelines for Vitamin and Mineral Supplements

We object to Item 5.9 in Agenda Item 6, which states: "We recommend the following revision: All labels should bear a statement that a supplement should be taken on the advice of a nutritionist, a dietician, or a medical doctor." We do not believe making this labeling requirement would be in the best interest of the US consumer. We further believe that such a labeling requirement would be in violation of the Dietary Supplement Health and Education Act of 1994 (DSHEA).

Sincerely,

Brian and Evelyn Vinje
