Ann Thompson

There are a great many of us out here who are willing to pay for our own healthcare if we have a choice! The allopathic doctors are owned by the insurance companies, and my family has two persons who have given up on the efficacy of allopathic care. We NEED SUPPLEMENTS. The U.S. Government has allowed our soils to become depleted, and our food supply to become contaminated by hormones and antibiotics. If you restrict the use of supplements (warnings are fine if that's what you want), you are just selling the Government out to "them as have," versus us who have not.

PLEASE DON'T ADOPT THE NEW RESTRICTED SUPPLEMENTS! Regards, Ann Thompson
