

Dear Doulhet Clerk:

102

Thank you for the ban to prevent sick animals who can't move ^{RECEIVED} ^{FSIS DOCKET ROOM} ^{04 FEB 11 AM 2:02} own from entering our markets grocery stores. We must not take chances on these diseases being spread to humans And laws need to be in place to protect us. This must be made permanent & irreversible.

Also for the sake of the poor suffering animals... they are in pain for days, weeks, months. Someone must stand up for these animals who are in so much pain and distress.

Please do whatever possible to ensure they are killed in a humane manner as soon as they are noticed.

Please, please help to put an end to their pain & suffering so people like me can sleep at night.
