Dear Sir,

I am writing to express strong support for the USDA's proposed rule to prohibit downer animals in the human food supply. I was shocked to learn that sick animals were being used for food.

Also, God didn't make cows, sheep, goats, pigs, horses, etc to eat meat. I do not believe we should make food for animals with leftover meat scraps. Isn't this where this "Mad Cow" disease is coming from? What are we doing to our food supply???. What about future generations? Don't we care? Are we killing ourselves for the almighty dollar?

Thank you for your time.

Sincerely,
Caralyn Bartox
