I just read the "Drowned Animal" material I received in my mailbox. I am sickened by the treatment these suffering animals receive. All most animals receive anyway is the basic food & water, if even that.

Why is this allowed to go on? It's barbaric. Even animals bred & raised just for human consumption deserve proper care & a humane way to die. To leave them suffering & dying for days is unexcusable. There is no reason for it!!!

Please read the enclosed article! I mean all of it & place yourself in the animal's situation. When we are sick or injured, how about dragging us around by our ears or legs? They need humane treatment also.

Please help to get these laws passed!

God Bless  
Cheryl Hunter
