Dear Sirs of the USDA,

MAR-1 PM 12:36

We Feel that Downed And Sick Animals of All Types (Breeds) Should Be Euthanized AT Once. There is no reason for them to Be Tortured and Ignored. The farmer, Rancher & Feed lots & Processor Should Be responsible In The Humane Treatment and Processing of these Animals. There Is Also no good reason for Sick, Wounded or Dying Animals to be used for Human consumption. Animals should Be put down as quickly, and Humanely possible, Not Dragged, Beat, Punched, Hot Shotted (Electric stick) This IS wrong.

THANK You For Your Time,
The JAY HAYNES Family
