Dear Ann,

I, m a small dairy Farmer
in Wisconsin. we milk 45 cows each
on two traditional Farms. We need
every penny we can get to survive.

Why is perfectly good meat on
a "Downer" cow with an injury
not able to be used. People around
the world are starving, and we throw
perfectly good food away ie: Downer
animals, left over restaurant food, and
food people just throw away because
their "eye's are bigger than there stomachs."

Please reverse your decision
on downer animals. Thank you,

I am Earl F. Neuberger
