Comments:

I am concerned with my government allowing processed chicken to be imported from China. Don't tell be it is safe if cooked properly. That is what we were told at the beginning of the mad cow feasco before people in England died from it.

Why is my government not protecting me??? I guess I will have to protect myself by not eating any chicken from anywhere not even the US.

Comments:

I am appalled at the US Dept. of Agriculture's request to have chicken processed from China. The announcement was not disclosed to the public and the time for public comment closed before this went for Congressional approval. If the Dept. of Agriculture thinks this is such a great idea they should fully disclose it. I will not support any person in public office that does not require full disclosure to the public of matters like this.

Thank you for your time.

Kathleen Minnis
