

EPA Approved Laboratories for UCMR 2 April 14, 2008

These laboratories met the second cycle of the Unregulated Contaminant Monitoring Regulation's (UCMR 2) Laboratory Approval Program application and Proficiency Testing (PT) criteria for the methods indicated. These laboratories can only analyze samples using those methods marked with "X" next to their names. EPA approves these laboratories for UCMR 2, and will not grant new approvals.

End of List

The Laboratory Approval Program is voluntary, and is specific to laboratories analyzing samples for UCMR 2. The laboratories' approval status indicates they have demonstrated specific capabilities using the method(s).

Public water systems (PWSs) are responsible for their laboratories, and must ensure they are following the methods and meeting the quality control (QC) criteria specified in UCMR 2. Laboratories must post sample analytical results and required QC data electronically via the Safe Drinking Water Accession and Review System (SDWARS) within 120 days of the sample collection date. EPA may revoke a laboratory's approval status if the laboratory does not adhere to quality assurance/quality control (QA/QC) procedures and criteria, or fails to post data to SDWARS. If EPA revokes approval, the laboratory's name will no longer appear on this list. Once approval has been revoked, the laboratory cannot be re-approved during the UCMR 2 monitoring period.
