

USU Logo and Seal Uses and Restrictions

Logo

Seal

The USU logo and seal are unique identifiers of the University and, as such, have unique uses and restrictions. Consideration was given regarding the use of the seal and the logo. Due to the USU seal's intricate design (typical of most seals), it should be used only in an official capacity at the University. The logo will be used in all other cases. The following defines the uses and restrictions of the logo and seal:

1. The USU logo will be used on all University staff and faculty business cards. Instructions and specifications for ordering business cards can be found at the following link. [Ordering business cards](#)
2. The USU logo will be used on all presentations, slides, posters, banners, and other signage except when used in official ceremonies (i.e. commencement, awards, etc.) or when other official seals such as DoD or service seals are used. In such instances, the USU seal will be used. Presentation and poster templates, logos, and seals are available for download at the following link. [Templates and downloads](#)
3. The USU logo is to be used on marketing material, i.e. t-shirts, coffee mugs, or other marketing items usually sold in the USU Book Store. This does not preclude the book store from using the USU seal for marketing items. However, the logo should now be emphasized as the intended brand for the University.
4. The USU logo will be used in University publications, i.e. brochures, tri-folds, reports, stationery, web pages, etc.
5. The USU seal will not be used in conjunction with departmental sub-brands or logos.
6. The logo will not be used on official University letterhead.
7. The USU seal will continue be used on all official University flags. This does not include banners used to announce events.
8. The USU seal will continue to be used for all official certificates, medals, and awards.

Guidance for Duplication of the USU Seal and Logo

USU Seal

The USU seal is registered with the Institute of Heraldry and should not be modified. It is designed in the shape of a circle. Care should be given when copying the seal so as to ensure that it is not distorted into an oval. Uses of the seal can be found at the following link: [Uses of the Seal](#). The colors for the seal are from the Pantone Matching System (PMS) and are listed below. Comparable CMYK and RGB colors are additionally provided. The USU seal can be used with or without the motto “Learning to Care for Those in Harm’s Way.” When the motto is used the following colors should be used for the text: PMS=2623; R=97, G=16, B=106; C=59, M=100, Y=0, K=32. For light backgrounds the text should be a deep blue: PMS=2695; C=91, M=100, Y=0, K=49, or R=57, G=34, B=97. For Dark Backgrounds the text should be yellow: PMS=122; C=2, M=16, Y=82, K=0, or R=255, G=212, B=47.

UNIFORMED SERVICES UNIVERSITY
of the Health Sciences

The USU logo can stand alone or as a banner with text as shown above. When using this text, the font should be Adobe Caslon Pro bold, all upper case, for the top line. The color will be black or white depending on the background color used. The first letter of each word should be 2 points larger than the remaining letters. The top of the larger letters should line up with the top of the shield. The second line should be Adobe Caslon Pro semi bold italic, in upper and lower case, and will be the same size as the smaller text in the University name. When the text is used separate from the shield, the same font and sizing apply. Banners are available for download at: [Templates and Download](#)

When the USU banner is used with the name of a University school, the school will be aligned with the bottom of the logo. The font will be Adobe Caslon Bold and be the same size or smaller than the smaller letters of the University name. The color will be as follows: C=67, M=41, Y=0, K=0; R=88, G=113, B=179, PMS 2718 100%. Banners are available for download at: [Templates and Downloads](#)

Specifications

The brand is in the shape of a shield, representing the military and education, with the caduceus representing the medical field. The shield is divided into four sections, each representing the four uniformed services that attend USU. The colors represent the colors of the medical corps of the three military services. The shield, caduceus, and colors are complementary with the USU seal, resulting in a combined use of both symbols that is aesthetically pleasing.

Although these colors are representational, and should be used as the primary palette, the shield can stand alone and is recognizable with different color palettes and effects.

The primary colors and type specifications are as follows:

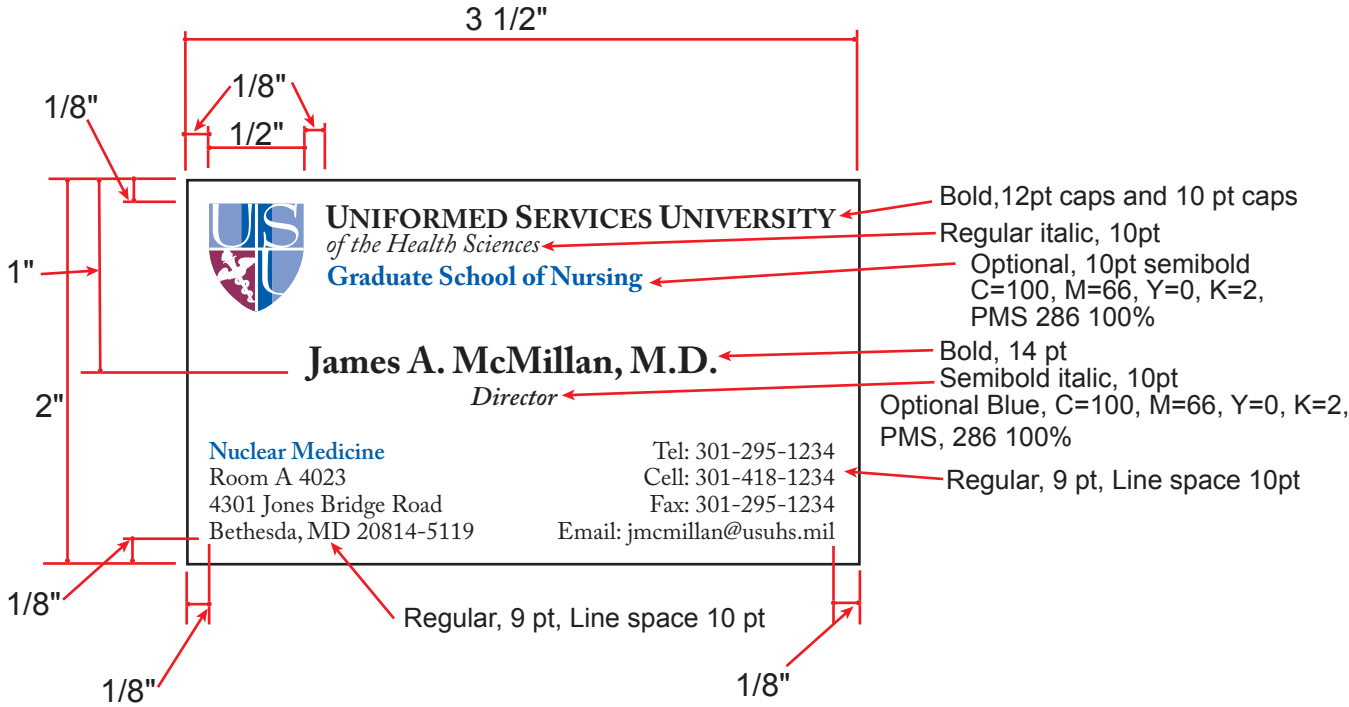

Light Blue: C=50, M=33, Y=0, K=2; R=127, G=152, B=204, PMS 286 50% .

Medium Blue: C=100, M=66, Y=0, K=2; R=0, G=93, B=170, PMS 286.

Maroon: C=0, M=80, Y=8, K=47; R=129, G=19, B=174.

Font is: Bernard Modern
