Important Note to Users:

From 1961-2001, estimates of waterfowl harvest, waterfowl hunter participation, and waterfowl hunter success in the United States were derived from a combination of several sources: 1) sales of migratory bird conservation stamps (Duck Stamps), 2) a Mail Questionnaire Survey of individuals who purchased ducks stamps for hunting purposes, and 3) the Waterfowl Parts Collection Survey (PCS). This survey, which was based on duck stamp sales was discontinued after the 2001 hunting season.

Beginning in 1999, new survey methods were implemented that obtained estimates of waterfowl harvest, hunter participation, and hunter success from: 1) States' lists of migratory bird hunters identified through the Harvest Information Program (HIP), 2) a questionnaire (HIP Survey) sent to a sample of those hunters, and 3) the Waterfowl PCS. The basic difference is that during 1961 - 2001 waterfowl hunter activity and harvest estimates were derived from a Mail Questionnaire Survey (MQS) of duck stamp purchasers, whereas from 1999 to the present those estimates were derived from HIP surveys of people identified as migratory bird hunters by the States. Both survey systems relied on the Waterfowl PCS for species composition data.

During 1989-2002, migratory game bird harvest and population survey information in the Central Flyway was presented in annually updated Data Books. Because of the recently implemented changes in survey design, historical harvest estimates will not be directly comparable to current estimates. Therefore, previous harvest survey information derived from the MQS are considered as final and compiled in the Central Flyway Waterfowl Hunting and Harvest Survey Information, 1961-2001.

For 1999 and subsequent years, waterfowl hunting and harvest estimates that are derived from HIP, along with the usual population survey information, will be compiled in annual updates of the Central Flyway Harvest and Population Survey Data Book. In the future, the annual Data Book will be expanded to also present annual hunter activity and harvest estimates for other migratory game bird species that are now derived from HIP surveys.

TABLE OF CONTENTS

U.S. DUCK STAMP AND CANADIAN PERMIT SALES:

Duck Stamp Sales in the United States, 2000-2004	2
Migratory Game Bird Permit Sales in Canada	3
Federal Sandhill Crane Permits Issued	4
Tundra Swan Hunting Permits	5

WATERFOWL HUNTER ACTIVITY AND SUCCESS:

Active Duck Hunters, Total Duck Hunter Days, Average Duck Hunter Days, and Average Seasonal Duck Bag Per Hunter	7
Active Goose Hunters, Total Goose Hunter Days, Average Goose Hunter Days, and Average Seasonal Goose Bag Per Hunter	8
Active Mid-continent Sandhill Crane Hunters	9
Active Tundra Swan Hunters	10
Average Seasonal Tundra Swan Bag Per Active Swan Hunter	11

DUCK HARVESTS IN THE UNITED STATES:

Mallard, Gadwall, and American Wigeon	13
Northern Pintail, Northern Shoveler, and Wood Duck	14
American Black Duck, Mottled Duck, and Mexican Duck X Mallard	15
Blue-winged Teal (Special, Regular, All Seasons)	16
Green-winged Teal (Special, Regular, All Seasons)	17
Black-bellied Whistling Duck and Fulvous Tree Duck	18
Redhead, Canvasback and Ring-necked Duck	19
Greater Scaup, Lesser Scaup, and Combined	20
Common Goldeneye, Ruddy Duck, and Hooded Merganser	21
Total Ducks	22

AGE RATIOS IN THE U.S. HARVEST:

Mallard All, Female, and Male Age Ratios	24
Northern Pintail, Gadwall, American Wigeon, Wood Duck, Redhead, Greater and Lesser Scaup Age Ratios	25
Blue-winged Teal and Green-winged Teal Age Ratios	26

SEX RATIOS IN THE U.S. HARVEST:

Mallard Adult and Immature Sex Ratios	28
---------------------------------------	----

DUCK HARVESTS IN CANADA:

Mallard	30
Pintail	31
Total Ducks	32

DUCK HARVESTS IN NORTH AMERICA:

Mallard	34
---------	----

GOOSE HARVESTS IN THE U.S. AND CANADA:

Snow/Blue Geese, Ross's Geese and White-fronted Geese	36
Canada Geese-Regular and All Season	37
All Light Geese and Total Geese	38

GOOSE AGE RATIOS IN THE U.S. HARVEST:

Canada Goose, White-fronted Goose, and Snow Goose Age Ratios 40

WATERFOWL POPULATION SURVEY INFORMATION:

Central Flyway Mid-winter Goose Survey, 2005 42
White-fronted Goose Population Status and Trends 43
Canada Goose Population Status and Trends 44
Light Goose Population Status and Trends 45
Central Flyway Mid-winter Waterfowl Survey - 2005 46
Central Flyway Mid-winter Waterfowl Surveys - 2000-09 47
Central Flyway Mid-winter Waterfowl Surveys - 1990-99 48
Central Flyway Mid-winter Waterfowl Survey Comparisons - 1948-2005 . . 49
Breeding Population Estimates For 10 Duck Species 50

TUNDRA SWAN POPULATION SURVEYS AND HARVESTS:

Mid-winter Survey for the Eastern Population 52
Harvest Estimates for the Eastern and Western Populations 53

SANDHILL CRANE POPULATION SURVEYS AND HARVESTS:

Spring Surveys for the Mid-continent Population 55
Harvest Estimates for the Mid-continent Population - U.S. 56
Harvest Estimates for the Mid-continent Population - N.A. 57
Harvests Estimates for RMP Cranes 58
Population Surveys for RMP Cranes 59

CENTRAL FLYWAY FRAMEWORKS:

Frameworks for Light Goose Hunting, 1999-2004 61
Frameworks for U.S. Light Goose Hunting, 1961-2004 62
Frameworks for Duck Hunting, 1999-2004 63
Frameworks for Sandhill Crane Hunting, 1999-2004 64

ADAPTIVE HARVEST MANAGEMENT:

AHM Decision Matrix, 1995-1998 66
AHM Decision Matrix, 1999-2004 67

HISTORICAL MEMBERSHIP LISTS:

Central Flyway Council 69
Central Flyway Waterfowl Technical Committee 70
Central Flyway Webless Game Bird Technical Committee 71
USFWS Flyway Representatives 72

¹ Mid-December Goose Surveys were discontinued after December, 1997.

² Yearly totals from 1983-84 to 1997-98 reflect Mid-December counts (when available) for TGP, EPP, and WP/GP Canada geese, W-CF and M-C light geese, and W-F geese; totals for Hi-line and SGP populations reflect Mid-winter Survey data. Counts from these time periods were designated as official counts by respective Management Plans.

D.E. SHARP FILE: S:\CF_D\EXCEL\MWS\GOOSE\SURVEY\GEE 07/13/05

¹ Since 1997, Mid-continent white-fronted geese have been considered one population, officially surveyed during Fall (September) in Saskatchewan and Alberta.

² Surveys in Mexico have been conducted at 3-year intervals since 1981-82. For estimation of 3-year averages after 1980/81-1982/83 we used the most recent Mexico count. Mexico data entries include white-fronts counted in the Interior Highlands (traditional areas) and East Coast Surveys. In 2003, no survey conducted on East Coast. Column entries reflect official December surveys (when available) from 1969/70 to 1997/98. Subsequent entries reflect January surveys.

³ In TX, traditional Mid Dec. cruise count not completed, WFG geese based on transect in Jar

D.E. SHARP FILE S:\CF_D\EXCEL\DATA\BOOK\GROUPS\SURVEYS.XLS 07/13/05

¹ Column entries reflect official December surveys (when available) from 1969/70 to 1997/98. December surveys and the separation of MF wintering Canada geese into populations were discontinued after December 1997. Subsequent entries reflect January surveys.

² Column entries reflect January counts (when available) which are the official counts for these populations or population segments.

³ Beginning in 1998/99, estimates of TGP and SGP Canada geese are based on newly defined wintering range boundaries.

⁴ Surveys in Mexico have been conducted at 3-year intervals since 1981-82. For estimation of 3-year averages after 1980/81-1982/83, we used the most recent Mexico count. Estimates of TGP geese in this column include only geese counted on the East Coast survey (not counted in 2003).

⁵ In TX, SGP based on cruise surveys, TGP cruise/transect.

D.E. SHARP FILE S:\CF_DIEXCEL\DATA\BOOKGROUPS\SURVEYS.XLS 07/13/05

- ¹ From 1969/70 to 1997/98 light geese were surveyed in Mid-December except in Mexico (January). After 1997, Mid-December surveys were discontinued and all subsequent surveys were conducted in January.
- ² Surveys in Mexico have been conducted at 3-year intervals since 1981-82. For estimation of 3-year averages after 1980/81-1982/83, we used the most recent Mexico count. Estimates of WCF geese in this column include only those geese counted in traditional survey areas within the Interior Highlands.
- ³ *In 2002, traditional Mid Dec. cruise count not completed in TX, Light goose estimate based on transect in Jan.

07/14/05

*In TX, SGP based on cruise surveys, TGP cruise/transect. Traditional Mid Dec. coastal cruise count completed for MC Light/WFG geese,

Jan count in High and Rolling Plains also included in Light/WFG count but transect numbers in the other survey zones not included (used actual counts).

¹ TX did not survey the Coastal Sand Plains due to weather and equipment problems.

² A proportion of the Alaskan harvest is composed of lesser sandhill cranes from the Pacific Coast Population³ Harvest data are from state harvest surveys for only the MCP portion of the state, except in 1977-81, 1986, 1991, and 1998-99 where federal MQS state totals are prorated by the long-term percent MC cranes; data from 2000 forward are MC portion from HIP.⁴ This MC harvest for AZ and NM represents MC sandhill cranes that were harvested in RMP areas and are not represented in the CF MC Sandhill Crane Federal Harvest Survey

**Estimated retrieved harvests of Mid-Continent sandhill cranes in the U.S.
of sandhill cranes in North America.**

² Unknown harvests (Mexico) were assumed to be 10% of harvests in the U.S. and Canada.

³ Unretrieved kill as reported by hunters is used for the Central Flyway; for the remainder of harvest areas, it is assumed to be 20% of retrieved harvests.

Estimated retrieved harvests of the Rocky Mountain Population of greater sandhill cranes.

1 Alaska frameworks are separate: Generally 105-107 days with a total goose bag of 6
 2. East - ND/SD/NE/KS/OK/TX (E.), West - MT/WY/CO/NM/TX (W.)
 3. The season is closed on Ross' geese
 4. The season is closed on snow geese in Wyoming
 5. The bag/possession limit on Ross' geese is 1/1.
 6. Aggregate goose limit
 7. Excluding ND, SD, and NE, where the ending date is Feb 12
 8. Excluding NM MRGV, where the ending date is Feb 14 (1981), Feb 13 (1982), Feb 12 (1983), Feb 28 (1984) 22. Opening date in WI is Oct 01
 9. The bag/pos limit for light geese is 5/5 for NM and the western goose zone, TX
 10. The bag/pos limit for light geese is 5/10 for NM and the western goose zone, TX
 11. Excluding NM MRGV, where the ending date is Feb 28
 12. Excluding MT and WY where the ending date is Feb 12
 13. Excluding ND, SD and NE north of the Platte R. and the Rainwater Basin Zone where the ending date is Feb 18

14. Excluding NE Rainwater Basin Zone where the ending date is Feb 16
 15. Excluding NE Rainwater Basin Zone where the ending date is Feb 01
 17. Excluding MT and WY north of I-80 where the ending date is Feb 18
 18. Aggregate goose bag limit - all may be light geese
 19. Closing date for AR is Jan 31
 20. Season closed in Issaquena, Sharkey and Washington Co. MS
 21. Closing date in LA is Feb 15
 23. Closing date for LA is Feb 14
 24. Closing date in KY, AR, TN, MS and AL is Jan 31
 25. States and portions of states south of I-80 have an ending date of Mar 10
 26. NJ, DE, MD, NC, PA, SC, and VA closing date of 3/10 allowed; SC chose 2/10 closing
