

# HEALTH for Kitsap Survey

The HEALTH for Kitsap project, a partnership between United Way of Kitsap County and the Kitsap County Health District, seeks to connect public health professionals, community based organizations and residents of Kitsap County to current data regarding health care, safe home environments, social services, and to help to make children “ready for school.” This survey is to ask participants about their knowledge and use of web-based resources, workshops or trainings, and how they share information with their members. Based on the results of this survey, the HEALTH for Kitsap project will be better able to disseminate information regarding health and human service related topics.

**Please fax this survey back to 360.377.4455. Thank you for your time and participation.**

1. What is your profession? \_\_\_\_\_
  
2. Are you familiar with/have knowledge of “The Standard of Health for Kitsap Families” that was developed by the Kitsap County Health District and community partners?  
YES NO
