5th FREE WORKSHOP
Wednesday, August 30th

Identifying Step One of Information Security Role-Based Training – Who Has Significant Security Responsibilities?

Presented by: *National Institute of Standards and Technology Computer Security Division and the U.S. Department of State Information Assurance Training Team in collaboration with the Federal Information Systems Security Educators' Association (FISSEA)*

Overview: FISMA assigns the Chief Information Officer responsibility for ''…training and overseeing personnel with significant responsibilities for information security …" (H. R. 2458—52 (3) D). One of the first steps in designing a role-based training program is to "identify your audience" – for this you will need to identify who within your organization has significant responsibilities for information security. Please join us for an interactive discussion and sharing of ideas, thoughts, and experiences in how to answer this question.

If you have already developed a methodology for determining significant security responsibilities, we would like you to share your ideas during the workshop. Please contact Mark Wilson (mark.wilson@nist.gov) and Susan Hansche (hansches@state.gov) so we can include you on the agenda.

Attendees: Training professionals interested in or responsible for ensuring that role-based training requirements are met in an effective learning environment. Attendees should be familiar with NIST or other federal guidance regarding information systems security, and related policies and procedures that have been developed by their agencies.

Date: Wednesday, August 30, 2006

Location: National Institute of Standards and Technology
                NIST Main Campus
                Lecture Room A, Bldg 101
                100 Bureau Drive
                Gaithersburg MD 20899

Time: 9:00am – 12:30pm

Cost: Free to FISSEA members!

Attendance: Maximum, 30 people, first-come, first served

You must pre-register by August 23, 2006

To register, send your name, agency, position title, email address, and phone number to:
Peggy Himes, peggy.himes@nist.gov (301) 975-2489 or
Kim Letarte, 301-975-2920, kim.letarte@nist.gov
