

What's New in Security Awareness

A Workshop Free to Everyone.

Join the members of Federal Information Systems Security Educators' Association (FISSEA) at the GovSec Conference to learn successful techniques and technologies to effectively increase employee and executive awareness of potential computer attacks. You will learn:

- **When to use posters, presenters, promotions, PR and other communication tools.**
- **The latest tools to increase interactive, automated and Web-based awareness.**
- **FISMA SP800-53 awareness requirements**
- **New training and education strategies.**
- **How to obtain resources for maintaining awareness.**

Presenters are Susan Hansche, Louis Numkin, and Jim Litchko

1:00pm - 2:45pm, Thursday, May 10, 2007

Washington Convention Center

801 Mount Vernon Place, NW , in Washington, DC.

For more information on the conference and workshop, please go to <http://www.govsecinfo.com>.
