

SBA EXPORT FINANCE PROGRAMS

When exporters are not bankable without a government loan guarantee, the U.S. Small Business Administration (SBA) offers a federal guarantee up to 90% to lenders on export loans. These loans have varying loan size limits with \$2 million the absolute cap that may not be exceeded. Interest rates are market-based, (not subsidized) and negotiated between the bank and borrower. SBA fees vary by loan terms and amounts. A personal guaranty is required and other conditions may apply.

Eligibility

- Meet SBA's size standards for small businesses
- Have been in business for at least 12 continuous months
- For all types of businesses, incl. service exporters
- Also businesses not directly exporting but who produce or sell product / services for export

Depending on the type of export financing, i.e., export transaction financing, export market development and start-up or long term financing for construction and equipment, four SBA loan programs are available.

While the maximum SBA guarantee is \$1.5 million, with an EXIM Bank co-guaranty, the loan limit is \$2 million. It can be used for a Stand by Letter of Credit in bid bonds and performance guarantees. SBA's fee is ¼ %; the Guarantee 90%.

- Pre-shipment: for the manufacture of goods, to purchase finished goods or services for export. WIP eligible.
- Post-shipment: to finance accounts receivable resulting from export sales (180 days maximum).
- Combination: to finance both the acquisition or production of export goods and services and the resulting accounts receivable; especially well-suited for contract financing of export sales.
