Nature's Goodness:

Why reduced/low fat milk for children over 24 months and women?

Nutrients for 8 oz (1 cup) of milk

	Skim Milk (0%)	1% Milk	2% Milk	Whole Milk (3.25%)
Calcium	306 mg	290 mg	285 mg	276 mg
Calories	80	100	120	150
Fat	trace	2 grams	5 grams	8 grams
Cholesterol	5 mg	12 mg	20 mg	24 mg

Source: USDA Nutrient Database for Standard Reference

Did you know...

- Reduced/low fat milk (skim, ½%, 1%, and 2%) has the same healthy nutrients as whole milk, but with less fat and fewer calories.
- Milk, no matter the fat content, is an excellent source of calcium and other minerals, protein, B vitamins, and vitamins A & D.
- Calcium and vitamin D in milk help make your bones and teeth strong and healthy.
- Unlike adults and children over 2 years old, children between the ages of 12 - 23 months need the fat from whole milk or breast milk for growth and development.

[Note] Store brands: Can be the store's own name brand or a brand name carried by the store that was created by the wholesale supplier.
