

Exotic Plant Species Known to Occur on the Oak Ridge Reservation - May 1996 ^a

Agrostemma githago	Cynodon dactylon	Ligustrum sinense	Ranunculus acris
Agrostis stolonifera	Dactylis glomerata	Ligustrum vulgate* (id)	Ranunculus bulbosus
Ailanthus altissima	Datura stramonium	Linaria vulgaris	Ranunculus repens
Albizia julibrissin	Daucus carota	Lolium multiflorum	Ranunculus sardos
Allium ampeloprasum	Dianthus armeria	Lolium perenne	Rosa multiflora
Allium vineale	Digitaria ischaemum	Lonicera japonica	Rubus phoenicolasius
Amaranthus hybridus	Digitaria sanguinalis	Lonicera maackii	Rumex conglomeratus
Amaranthus spinosus* (ot)	Dioscorea batatas	Lotus corniculatus	Rumex crispus
Anagallis arvensis	Dipsacus fullonum	Lysimachia nummularia	Rumex obtusifolius
Anthoxanthum odoratum	Draba verna	Lythrum salicaria	Salix alba
Arabidopsis thaliana	Duchesnea indica	Maclura pomifera	Salix babylonica
Arctium minus	Echinochloa crusgalli	Mahonia bealei	Saponaria officinalis
Arenaria serpyllifolia	Elaeagnus pungens	Malus pumila* (ne)	Secale cereale* (ne)
Arthraxon hispidus	Elaeagnus umbellata	Medicago lupulina	Senna obtusifolia
Asparagus officinalis	Eleusine indica	Medicago sativa* (pl)	Setaria faberi
Barbarea vulgaris	Eragrostis cilianensis	Melilotus alba	Setaria pumila
Belamcanda chinensis	Eragrostis curvula	Melilotus officinalis	Setaria viridis
Berberis thunbergii* (ne)	Erysimum cheiranthoides	Mentha spicata	Sida spinosa
Brassica rapa	Festuca arundinacea	Mentha x piperita	Sonchus asper
Bromus commutatus	Festuca pratensis	Microstegium vimineum	Sorghum bicolor* (ne)
Bromus hordeaceus	Festuca rubra	Mollugo verticillata	Sorghum halepense
Bromus japonicus	Galium parisiense	Mosla dianthera	Spiraea douglasii* (ne)
Bromus tectorum	Galium pedemontanum	Murdannia keisak	Sporobolus indicus
Buglossoides arvense	Geranium columbinum	Myriophyllum spicatum	Stellaria media
Buxus sempervirens* (pl)	Glechoma hederacea	Narcissus pseudonarcissus* (pl)	Taraxacum officinale
Calamintha nepeta	Hedera helix* (pl)	Nasturtium officinale	Thlaspi perfoliatum* (pl)
Capsella bursa-pastoris	Hemerocallis fulva	Nicandra physalodes	Tragopogon dubius
Cardamine hirsuta	Hibiscus trionum	Ornithogalum umbellatum	Trifolium campestre
Cardamine parviflora	Holcus lanatus	Paspalum dilatatum	Trifolium hybridum
Catalpa bignonioides	Holosteum umbellatum* (pl)	Paulownia tomentosa	Trifolium pratense
Celastrus orbiculatus	Hypericum perforatum	Perilla frutescens	Trifolium repens
Centaurea cyanus	Ipomoea coccinea	Phleum pratense	Triticum x aestivum* (ot)
Centaurea maculosa	Ipomoea hederacea	Plantago lanceolata	Tussilago farfara
Cerastium fontanum	Ipomoea purpurea	Poa annua	Urtica dioica
Cerastium glomeratum	Iris germanica* (ne)	Poa compressa	Verbascum blattaria
Chaenorrhinum minus	Iris pseudacorus	Poa pratensis	Verbascum thapsus
Chenopodium album	Kummerowia stipulacea	Polygonum cespitosum	Veronica arvensis
Chenopodium ambrosioides	Kummerowia striata	Polygonum cuspidatum	Veronica officinalis
Chrysanthemum leucanthemum	Kyllinga brevifoliodes	Polygonum hydropiper	Veronica serpyllifolia
Cichorium intybus	Lactuca saligna	Polygonum persicaria	Vicia angustifolia
Cirsium arvense	Lactuca serriola	Poncircus trifoliata	Vicia villosa
Cirsium vulgare	Lamium amplexicaule	Populus alba	Vinca minor
Commelina communis	Lathyrus latifolia	Populus x jackii	Vitex agnus-castus* (ne)
Consolida ambigua	Leonurus cardiaca	Potamogeton crispus	Vulpia myuros
Convallaria majalis	Lepidium campestre	Potentilla recta	
Coronilla varia	Lespedeza bicolor	Prunella vulgaris	
Crepis pulchra	Lespedeza cuneata	Pueraria lobata	

^a The database contains some taxa that are not eligible for inclusion in the ORR vascular flora, but they have been retained in the database to clarify their status. These species are marked above with an asterisk (*). The following abbreviations indicate why these taxa are not included in the ORR flora:

id (identification) = the identification is questionable

ne (not established) = exotic taxon from horticulture that has not yet shown that it can survive without horticulture

ot (ownership transferred) = the location where the taxon was found is outside the current ORR boundary (The ORR boundary has changed due to the transfer of "surplus" land.)

pl (previous list) = on Mann et al. (1985) (A Checklist of the Vascular plants of the Department of Energy Oak Ridge Reservation), but currently there is not evidence in the form of a specimen or a confident report from a botanist for the occurrence of the taxon on the ORR
