## Storm Data and Unusual Weather Phenomena

August 2004

Location	Date	Time Local/ Standard	Path Length (Miles)	Path Width (Yards)	Number of Persons Killed	Number of Persons Injured	Estimated Damage Property	Estimated Damage Crops	Character of Storm
----------	------	----------------------------	---------------------------	--------------------------	--------------------------------	---------------------------------	---------------------------------	------------------------------	--------------------

### ALABAMA, Southeast

### ALABAMA, Southwest

#### Mobile County

Mobile	10	0900CST			0	0	30K		<b>Lightning</b>
--------	----	---------	--	--	---	---	-----	--	------------------

Lightning struck a home and started a fire. The fire was put out by firefighters, but still caused considerable damage

#### Mobile County

Saraland	10	0900CST			0	0	10K		<b>Lightning</b>
----------	----	---------	--	--	---	---	-----	--	------------------

Lightning struck a tree near a home and caused the roof to catch fire. The fire department was able to put the fire out before major damage occurred to the home.

#### Mobile County

Chickasaw	10	1000CST			0	0	5K		<b>Lightning</b>
-----------	----	---------	--	--	---	---	----	--	------------------

Lightning struck an old train caboose, which is used to house the Chickasaw Chamber of Commerce. The strike caused only minor damage, but the Chamber had to close for a couple of days while repairs were made

#### Mobile County

Mobile	10	1300CST			0	0	50K		<b>Lightning</b>
--------	----	---------	--	--	---	---	-----	--	------------------

Lightning struck the roof at a local elementary school at about the time school was letting out. The strike started a fire in the roofs insulation which was quickly put out. No one was injured

#### Choctaw County

Butler	20	1515CST 1520CST			0	0	5K		<b>Thunderstorm Wind (EG50)</b>
--------	----	--------------------	--	--	---	---	----	--	---------------------------------
