Subject: Chartering and Field of Membership for Federal Credit Unions

This email is to let you know that I oppose the modifications proposed to the National Credit Union Administration Board regarding a statistical area and a rural district. In my view, this is an overexpansion of the limited geographic and common bond tenets at the core of a credit union's membership. Please keep in mind the intention and mandate of Congress as outline in the Federal Credit Union Act.

Sincerely,

Robert P. Aravich, Jr.
