## THE ENVIRONMENT AND HEALTH STUDY QUESTIONNAIRE

Good (morning/afternoon/evening). Thank you for agreeing to talk with us. I would like to ask you some questions from a questionnaire form. The questions deal with information about your medical history, personal habits, diet, hobbies, residential history, and job history. We are trying to learn about factors that relate to health. Therefore, we would appreciate your efforts to answer the questions as best you can. Some of the questions are sensitive in nature, so you don't have to answer any that you choose not to. Your name does not appear on the document I am completing; it is identified by a number. Please be assured that all information that you provide will be kept confidential as provided by law.

## [FOR TELEPHONE INTERVIEW:]

If at any time you need to hang up, please let me know and we can continue at another time.

#### SECTION I: OCCUPATIONAL HISTORY

Now I am going to ask you about jobs you have had. We are interested in finding out about each job you had since you were 19 years old that lasted two years or more. This includes full-time jobs, part-time jobs, and job-training programs. Please include jobs you had during military service and while you were in school if they lasted for at least two years.
