DES DAUGHTERS

## REPRODUCTIVE HEALTH STUDY

.

National Institute of Environmental Health Sciences Research Triangle Park, North Carolina 1990 Hello, I would like to speak with

This is \_\_\_\_\_ with the DES Reproductive Health Study.

You were recently sent a letter to let you know that someone from our staff would be calling. In the first part of the study, we would like to ask some questions about your health in general and more specifically about your reproductive health.

We would now like to do this interview by telephone. Is this a good time? The interview takes about half an hour.

#### LETTER NOT RECEIVED:

First, let me confirm that I have reached the correct person. Is this \_\_\_\_\_? Was your mother associated with the DES Project in Chicago?

IF YES: Can I tell you about the study now?

(78)

In the second part of the project we would like to look more closely at menstruation by having women like you tell us more about their menstrual cycles.

We have designed a special diary booklet made up of weekly calendars to cover a six-month period. On these calendars, you would note days of bleeding and other information about your cycles. We tested the booklet in a group of volunteer women who said that it is very quick and easy to do.

We would like to include you in this important part of the study. May I send you a booklet?
