Print and CD ROM Publication Order Form

Alternative Farming Systems Information Center (AFSIC) publications orient searchers to sustainable agriculture topics, provide research guidance and optimize information retrieval. Our print and electronic resources describe specific topics; identify relevant books, articles, papers, and electronic sources; list subject experts or organizational contacts; suggest reading materials and Web sites; and offer database and Internet search tips. Titles listed below are print format unless otherwise noted. Mini-CD-ROM disks contain PDF documents and fit all computers with CD trays (not slots).

AGRICOLA, the National Agricultural Library (NAL) book and article citation database from which many AFSIC bibliographies are derived, is searchable on the Web at <http://agricola.nal.usda.gov/>. We encourage our customers to search AGRICOLA and other bibliographic databases [http://afsic.nal.usda.gov/nal_display/index.php?info_center=2&tax_level=1&tax_subject=288] to update the information in our bibliographies.

Please Note: Most AFSIC information products are now ONLY available electronically via our Web site. Online research guides include Information Access Tools for sustainable agriculture and organic production, and automated databases searches. Check the complete AFSIC Publications list (<http://www.nal.usda.gov/afsic/pubs/pubsindex.shtml>) to access all current guides, most recent directories and updates, as well as older, out-of-print bibliographies.
