

Map was obtained including necessary data supplied by the National Ocean Service (NOS). Bathymetry was obtained from NOS bathymetric survey data and other data obtained from the U.S. Naval Oceanographic Office (NNO). Bathymetric contours were compiled with International Hydrographic Organization (IHO) Publication No. 1,000, 1:50,000 scale, or better, and the date of the survey. Water is shown on the map for depths less than 100 meters.

This information is not intended for navigation purposes.

This map has been tested to show through comparison with the Department of Interior, Geological Survey and the U.S. Geological Survey.

Official pronunciation only may be printed in red, controlled by the Bureau of Management Services from various units of the U.S. State Department. Official Pronunciation Diagrams: THE PUNCTUATION ON THIS MAP ARE NOT FOR FEDERAL LEARNING PURPOSES, but only prepared for the U.S. Official Pronunciation Diagrams available from the Bureau of Management Services.
