

Base map information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry was compiled from NOS multibeam survey data (see notes) which comply with International Hydrographic Organization (IHO) Special Publication 44 criteria standards or those used at the date of the survey. As this map is not continuously updated, it may not reflect the most current data. For the most current information, please refer to the NOS Office of Hydrography website: <http://www.noaa.gov/hydro>.
Other projection errors also present in regions unvisited by the Hydrographic Survey. Heavy lines indicate areas of 1000 Meter Contour Interval (CII) or greater. The projections on this map are not for heavy contouring. For more information refer to the NOAA Office of Hydrography website: <http://www.noaa.gov/hydro>.
General Transverse Mercator Projection and Grid Zone No. 18QDN (see note 1) are shown on the map.
North American Datum - 1983

WAVE NUMBER CONVERSION

Wavelength (m)	Wave Number (cycles/m)
1000	0.001
500	0.002
250	0.004
125	0.008
62.5	0.016
31.25	0.032
15.625	0.064
7.8125	0.128
3.90625	0.256
1.953125	0.512
0.9765625	1.024
