

Base map information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry compiled from NOAA hydrographic survey data (see index). NOS hydrographic survey data complies with International Hydrographic Organization (IHO) Special Publication No. 2. Accuracy standards or those used at the date of the survey. This information is not intended for navigational purposes.
General Transverse Mercator Grid, Zone 18, 12,000 Meter Scale (1:12,000) are shown inside the map.
Oblique projection survey data, present in red, compiled by the Minerals Management Service. Heavy lines indicate limits of MMS Outer Continental Shelf Offshore Protection Diagram. The projections on this map are not for Federal loading purposes, but such purposes refer to the OCS Offshore Protection Diagram available from the Minerals Management Service.
