

BATHYMETRIC MAP

Base map information including bathymetry was compiled by the National Ocean Survey (NOS). Bathymetry compiled from NOS hydrographic survey data (see index) which comply with International Hydrographic Organization (IHO) Special Publication 48 accuracy standards or those used at the date of the survey. This information is not intended for navigational purposes.

Universal Transverse Mercator Grid, Zone 15, 1000 Meter Ticks (—) are shown inside the mapline.

Offshore protection survey data, printed in red, compiled by the Bureau of Land Management. Heavy lines indicate limits of BLM Outer Continental Shelf Official Protection Diagrams. The projections on this map are not for Federal Licensing purposes; for such purposes refer to the OCS Official Protection Diagram available from the Bureau of Land Management.
