

Some map information including bathymetry was compiled by the National Ocean Service (NOS) bathymetry compiled from 1925 hydrographic survey data (see index) which comply with International Hydrographic Organization (IHO) Special Publication No. 22 except standards or those used at the date of the survey. This information is not intended for navigational purposes.

Universal Transverse Mercator Grid, Zone 18, 10,000 Meter Ticks (1" on map equals the meters).

Offshore geodetic survey data, printed or not, compiled by the National Ocean Service. Heavy lines indicate limits of NOS Outer Continental Shelf Official Projection Diagrams. The projections on this map are for Federal Licensing purposes. For such purposes refer to the OCS Official Projection Diagram available from the National Ocean Service.

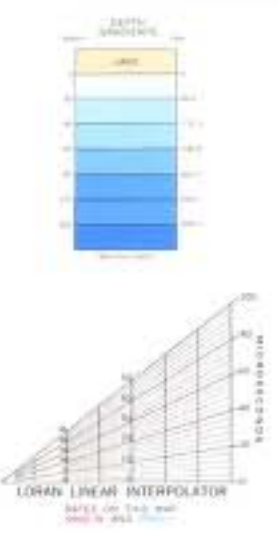

SEDIMENT TYPES
